ROCK PLANTS AND IRIS

**CARL STARKER
JENNINGS LODGE
OREGON**

Introduction

PLEASE READ CAREFULLY

Our 1938 catalogue comes to you as our personal greeting to friends old and new. Whenever it is possible, we would be much pleased to have you call at our gardens, where there is always something interesting to be seen. We realize how impossible it is to adequately describe the many plants which we grow, in the small compass of our catalogue. Our gardens are situated on a paved road, one half block east of the new Portland-Oregon City highway, which is one block south of the interurban crossing at Jennings Lodge.

If you live too far away to drop in on us, try visiting by letter. We are always glad to receive letters, and are pleased to answer all questions to the best of our ability. We grow a great many choice plants in quantity too small to list in the catalogue. If you are interested in any particular type of plant, write us about it. We may be able to supply your needs.

After having tried several experiments in the make-up of our catalogue, we have decided that it is the simplest and most satisfactory to list all items alphabetically, rather than to make different sections for new introductions, shrubs, etc.; so we have made no separate section except for the irises. We have been able to add quite a number of fine new plants to this year's catalogue, but in some cases we have found it necessary to withdraw plants in order to increase our stock. We have not found it possible to include cultural directions, but this year we have appended a simple key. S indicates a sunny situation; Sh means shade is required; S-sh means semi-shade; B means that a plant is bulbous.

We have become very much interested in dwarf evergreens in the last few years, and are accumulating a good stock of these slow growing miniature trees. (They are especially suitable for rock garden use, as they grow very slowly and, once established, they require very little attention.)

It is rather a problem to find suitable low growing shrubs for the rock garden, but we are happy to say that we have a really fine collection of them which includes the rare *Kalmiopsis Leachiana*, dwarf brooms of many kinds, dwarf rhododendrons, low growing heathers and many other miniature shrubs.

In addition to the dwarf evergreens and shrubs, we have an unusually complete collection of flowering onions, campanulas, saxifrages. We also have a fine variety of thymes, micromerias, teucriums and other aromatic plants which will prove a welcome addition to the scented garden.

Christmas Greens

If you are looking for something individual for Christmas decorations, our assorted evergreen wreaths will be sure to please you. They are made up according to our original design from a variety of evergreens of lovely shades and textures, beautifully ornamented with cones and pods. There is nothing else quite like them. Price \$2.00.

We also supply fine Oregon grown holly sprays, well berried at 75c per pound, and nicely berried holly wreaths at \$1.00, \$1.50 and \$2.00. All Christmas greens will be shipped express collect.

We realize that the Christmas holidays are still a long way off, but if you are interested, just drop us a card and we will file your name and send you a descriptive folder early in November. Orders should be placed by the first of December.

Terms of Sale

NON-WARRANTY IS A CONDITION OF ALL SALES MADE. On account of the great number of causes of failure over which we have no control, such as poor or improper soil, unfavorable weather, ignorant or careless culture, we can assume no responsibility after stock is delivered.

ORDER EARLY. Early orders are suggested to prevent disappointment in case the variety should be sold out. Please write your name and address plainly.

TIME OF SHIPMENT. We make a point of mailing out orders as soon as possible after we receive them, so if there is any reason why you do not want your order shipped immediately, please be sure to inform us about it, and give us the date on which you wish to have it shipped.

STOCK. All orders will be filled with good strong stock that will be reasonably sure to bloom the first season. We do not substitute.
TERMS. Cash should accompany all orders. No order will be accepted for less than \$1.00, except for seeds. Make checks payable to Carl Starker.

POSTAGE. We prepay postage on all orders over \$2.00 in Oregon, Washington and California. All others please add 10% to help cover postage and packing.

ROCK PLANTS AND ALPINES

Price except where noted 25c.

ACAENA. S. D. Neat little carpeters with mats of rose-like foliage.

Buchananii. Trailer with gray green foliage.

Glauca. Beautiful silver gray leaves.

Inermis. (*Microphylla*). Purple-bronze foliage.

ACHILLEA. S. D. Suitable for poor dry soils.

Argentea. A mass of silvery feathery foliage. Flowers white. 4 in.

Clavennae. Wide tufts of downy leaves with clear white flowers.

Nana. Prostrate. White flowers in mid-summer.

Tomentosa. Finely cut wooly foliage. Golden yellow flowers. 6-10 in.

ACONITUM Anthora. S-sh. Monkshood. Pale yellow flowers. 18 in. 50c.

ACTINEA Herbacea. S. Bright yellow daisy-like flowers. 8 in.

AETHIONEMA. S. D. Charming bushlets with beautiful glaucous foliage.

Grandiflorum. Dark Rose. Rosy blossoms in racemes. 35c.

Grandiflorum. Light Rose. Light pink. 8 in. 35c.

Warley Hybrid. Choice blooms of deep rose. Finest of all. 50c.

AJUGA. Sh. Bugle flower. Attractive ground cover.

Brockbankii. Metallic foliage.

Metallica Crispa. Very compact with deep green crinkly leaves with metallic shadings. Rare. 40c.

Reptans. Mats of glossy ornamental foliage. Blue flowers.

Variegata Foliosa. Yellow and purple variegated foliage.

ALCHEMILLA Alpina. S. Mats of palmate leaves attractively fringed.

ALLIUM. S. B. Little known plants with beautiful showy flowers in umbels. Permanent and easy.

Albopilosum. Large, imposing silvery blue flowers. Fine for cut flower. 35c.

Albo-purpureum. Claret red flowers. 3 ft.

Aschersonianum. Pink flowers for a sunny spot. 35c.

Cernuum. Nodding clear pink blossoms. 8 in.

Cyaneum. Lovely light blue flowers in June. 6 in.

Darwasicum. Soft lavender pink. 6 in.

Falcifolium. Rose flowers. 2-3 in.

Flavum. Fine yellow flowers.

Flavum Minor. Similar to *Flavum*, but more dwarf.

Globosum. Round heads of mulberry and silver. 3 ft. 35c.

Karataviense. Lilac blue. Wide glaucous leaves. 35c.

Moly. Showy heads of brilliant yellow flowers with broad glaucous foliage. Handsome.

Neapolitanum. White flowers with green stamens. 1 ft.

Oreophilum. Deep lilac. 15 in.

Pulchellum. Heads of rose colored flowers. Late. 6-8 in.

Rosenbachianum. Large rosy purple heads. 3 ft. 35c.

Roseum Grandiflorum. Lovely deep pink. 12-18 in.

Ruby Gem. Fine amethyst rose. Long season bloomer.

Schoenoprasum. Pretty rosy purple flowers.

Tibeticum. Balls of mauve pink flowers. Dwarf. Early bloomer.

Triquetrum. Very attractive. Large waxy white blooms. 8-10 in.

ALYSSUM. S. Showy plants for well drained places.

Alpestre. Gray foliage. Yellow flowers. Prostrate. Desirable.

Condensatum. Hoary foliage and light yellow flowers. 6 in.

Idaeum. A real treasure with prostrate shimmering silver green foliage and soft yellow flowers. 50c.

Saxatile fl. pl. A double flowered form of saxatile. 50c.

Spinosum. Silvery foliage with white flowers. Good.

ANDROMEDA Polifolia Nana. Attractive evergreen shrub with small narrow foliage and pink-tinted white flowers. Small plants. 50c.

ANDROSACE. Primula-like flowers. Foliage in rosettes. Requires a gritty soil and prefers a north aspect. Very lovely and choice.

Carnea Lageri. Compact juniper-like foliage and heads of attractive pink flowers. 50c.

Chumbyi. Smaller than primuloides. Velvety rosettes and heads of rosy pink flowers.

Lanuginosa. One of the most beautiful and floriferous with silvery foliage and soft rosy lilac blossoms. Blooms all summer.

Primuloides. Rosettes of silvery foliage and lilac pink flowers.

Sarmentosa. Var. *Watkinsii*. Tight silky rosettes with pink flowers. 50c.

Sempervivoides. Beautiful smooth rosettes of bright green with rosy flowers on 4 in. stems. 50c.

ANEMONE. Windflower. Lovely plants of easy culture.

Apennina. S-sh. Exquisite rich blue blossoms in earliest spring. 3 in. 35c.

Halleri. Pulsatilla type. Rich violet flowers. 6 in.

Hupehensis. Dwarf Japonica type. Pale mauve flowers from August to late fall. 14 in. 35c.

Nemorosa Alba fl. pl. S-sh. Lovely abundant double white flowers. Choice and rare. 6 in. 50c.

Nemorosa Robinsoniana. S-sh. Pale powder blue with buff reverse. 35c.

Oregana. S-sh. Choice western native. Somewhat similar to *Nemorosa* with white, pink or lavender flowers.

Pulsatilla. Silky buds open to form deep lavender flowers with golden centers. Attractive fluffy seed heads.

Pulsatilla Alba. A fine white form of the above. 35c.

Pulsatilla Rubra. Curious reddish brown flowers.

Silvestris. S-sh. Large creamy white flowers. Dark foliage.

Vernalis. Large white flowers with bluish reverse on very short stems. Choice and rare. 75c.

ANEMONELLA Thalictroides. S-sh. Dainty rue-like foliage and lovely anemone-like flowers of white, pale pink or pale lavender.

APHYLLANTHES Monspeliensis. Fascinating little rush with delicate blue lily-like flowers. 50c

ANTHEMIS. S. Ferny foliage and daisy-like flowers.

Montana. Charming sort with silvery foliage and white flowers. 1 ft.

Sancta-Johannis. Beautiful glowing orange flowers all summer. 50c.

AQUILEGIA. Columbine. Handsome foliage all through the year. Showy flowers in May and June.

Alpina. Marvelous powder blue flowers. 12 in.

Buergeriana. Blue and white. Dwarf. 6-8 in. 50c

Canadensis Nana. Dainty red and yellow flowers very freely produced. Dwarf. 8-12 in.

Chrysantha. Fine long spurred yellow from the Rocky Mountains. 2 ft.

Crimson Star. Fine large crimson and white flower. Very attractive.

Coerulea. Colorado native. Lovely blue and white flowers.

Compacta Edelweiss. Trim plant with silvery leaves and white flowers.

Hensol Harebell. Vivid deep violet blue. 18 in. 35c.

Jucunda. Gorgeous blue and white flowers of great size and fine substance. Rare. 50c.

Monarch Hybrids. Fine large, long spurred, broad petalled flowers of many exquisite shades. New.

Pyrenaica. Deep violet blue flowers. Dwarf. Choice. 35c.

Routeri. Deep blue. Short spurs. 12 in.

ARABIS. S. Rock Cress.

Alpina Flore-plena. Dense masses of double white flowers.

Alpina Rosea. Soft rose colored flowers. Dwarf.

Alpina Variegata. Variegated yellow and green foliage. Very showy.

Androsacea. Silvery clumps of neat silky rosettes. Choice. 50c.

Kellereri. Silvery foliage with white flowers. Choice. 35c.

Procurrens. Dense deep green foliage. White flowers. 3 in.

ARCTOSTAPHYLOS Uva-Ursi. (Bear Berry). Prostrate evergreen with shiny round leaves and pink tinted vase-shaped flowers followed by showy red berries. 35-50c.

ARENARIA. Fine carpeting plants.

Grandiflora. A small tufted alpine with white flowers.

Montana. Trailing green foliage and large white flowers.

Tmolea. Stiff cushions of tiny leaves with white flowers. 35c.

ARISAMEA Triphyllus. Sh. Jack-in-the-pulpit. Curious black and green calla-like flower. Middle western native.

ARMERIA. S. Sea Pink. Thrift.

Caespitosa. Tight cushions of foliage 2 in. high. Produces a profusion of stemless pink flowers. A rare gem. 50c.

Caespitosa Hybrids. Free flowering hybrids slightly larger than the type. White to deep pink.

Maritima Alba. Neat tufts of grass-like foliage. White flowers. 6 in.

Maritima Lauchiana. Fine form with rose-colored blossoms.

ARTEMISIA Glacialis. Mats of finely cut silvery foliage. 3-4 in. 35c.

ASARUM. Hartwegii. S-sh. Wild Ginger. Dark leaves mottled white.

ASCLEPIAS Tuberosa. Showy heads of brilliant orange flowers. 18 in.

ASPERULA. Wiry tufted plants with clouds of airy flowers.

Cynanchia. Dainty trailer with tiny soft pink flowers in great abundance

Longiflora. Long trumpeted white flowers, tinted pink.

Lutea. Dark green foliage and tiny yellow flowers. 3 in.

ASTER. S. A large genus of attractive daisy-like flowers.

Acris. A bush type with small bright violet blue flowers in great profusion. 3 ft.

Alpinus. Clear lavender flowers with golden centers. Dwarf.

Alpinus Albus. White form of the above.

Alpinus Dolomiticus. Lovely dark lavender.

Linarifolius. Very fine blue flowers and very slender leaves. 8-10 in.

Pleiades Yvette Richardson. Airy bush with masses of lavender blue flowers. 8 in.

DWARF HYBRID ASTER. A wonderful new race of asters like dwarf Michaelmas daisies. Less than one foot tall. Profuse bloomers. Choice and lovely. Good for edgings. August to October.

Constance. A really pure shell pink of very graceful habit. 9 in.

Countess of Dudley. Clear pink. 12 in.

Daphne. Lovely soft pink. 9-12 in.

Diana. Large delicate soft pink semi-double flowers.

Hebe. Compact. Small deep pink flowers. September. 10 in.

Lady Henry Maddocks. Clear pale pink. 9 in.

Marjorie. Large flowers of bright rose pink.

Nancy. Lavender tinted pink. 9 in.

Ronald. Lilac with rose pink buds. Showy. 12 in.

Snowsprite. Lovely low bush. Semi-double white blossoms.

Victor. Very dwarf. Blossoms clear pale lavender blue. 6 in.

Collection. A collection of ten of these fine dwarf hybrids, \$2.00.

ASTILBE. Simplicifolia. Sh. Neat glossy leaves and fluffy spires of pinkish blossoms. Choice. 6 in. 50c.

Sinensis Pumila. A fine dwarf with six inch pink plumes. 50c.

AUBRETIA. S. Neat tufts of gray green foliage smothered with bright flowers in early spring. Likes lime.

Monarch Hybrids. Fine large flowered forms from named varieties. Extra choice.

Variegata. Variegated yellow and green foliage with purple blue flowers. Rare. 50c.

AURICULA Alpina. S-sh. Handsome primrose-like plants with smooth, powdered foliage and velvety flowers. Many rich colors.

Yellow Shades. Fine selection of yellow shades. 35c.

BELLIS Dresden China. Dainty miniature daisy with double flowers of palest shell pink. A real gem. Rare. 2 in. 50c.

BRODIAEA. B. Native plants producing big heads of showy flowers.

Hendersonii. Starry pale yellow flowers with blue lines. 20c.

Ixloides. Bright yellow with darker bands. 20.

Laceta. White with green mid-vein. 20c.

BROOMS

WE have listed all *Cytisus* and *Genista* species as Brooms, as we feel that this makes it simpler to find them in the catalogue. The plants listed below are all dwarf species and make ideal rockery shrubs, particularly suited to hot and sunny situations.

Cytisus Ardionii. A low growing treasure with flowers of brilliant yellow. 6-9 in. 75c-\$1.00.

Cytisus Beanii. A neat shrub covered with golden flowers. 12-18 in. \$1.50.

Cytisus Hirsutus Decumbens. Very prostrate with trailing stems and masses of bright yellow flowers. Very choice. 35-50c.

Cytisus Humifusa. A very small, slow growing broom. Very prostrate with tiny, shiny leaves of deepest green and bright yellow flowers. New. 75c.

Cytisus Kewensis. A showy and beautiful broom of spreading habit covered with creamy flowers in May. Rare 8-12 in. 50c-\$1.00.

Cytisus Purpureus. Slender weeping branches and rosy lavender flowers. Graceful and lovely. 50c-\$1.00.

Genista Dalamtica. Tiny bushlet with finely cut foliage smothered with bright yellow flowers in May. 75c.

Genista Horrida. Choice and spiny. Forming silvery tuffets with yellow flowers. June-July. Rare. 4 in. \$1.00-\$1.50.

Genista Pilosa. Dainty foliage. An attractive trailing species with hairy foliage and yellow flowers. 50-75c.

Genista Radiata. Dainty silvery spidery bushes. Yellow blooms. May and July. 12 in. 50-75c.

Genista Sagittalis. Deep green cactoid foliage with abundant spikes of deep golden flowers. Trailing. 8-12 in. 25-50c.

Genista Tinctoria flore-plena. Valuable prostrate form with attractive double yellow flowers. 25-50c.

BRUCKENTHALIA Spiculifolia. Small heath-like plant with pink flowers in June. 6-8 in. 50-75c.

CALLIRHOE Involucrata. S. Trailing. Finely divided foliage. Showy crimson flowers all summer and autumn.

CALLUNA. See Heather.

CALMINTHA Alpina. Mats of aromatic foliage. Soft lavender blooms.

CALTHA Palustris Var. *Monstrosa*. Marsh Marigold. Shiny rounded leaves and large golden flowers on 18-24 in stems. Fine pool or bog plant. 50c.

CAMASSIA, Esculenta. B. Western native. Fine tall spikes of deep blue star-shaped flowers. 1-2 ft. 10c.

CAMPANULA. A large and varied family, containing many desirable rock plants. Especially valuable on account of its long season of bloom. Gritty soil in part shade.

Abietina. Fine violet vase-shaped flowers. 9 in. May-November.

Barbata. Rosettes of hairy leaves and 8-10 inch spikes of large pale China-blue bearded bells.

Cochlearifolia (Pusilla) Dainty nodding lavender blue bells produced in great profusion over dense mats of attractive foliage.

Cochlearifolia Alba. Dainty white form of the above.

Cochlearifolia Miranda. Large silvery blue bells on 4 in stems. Late. 35c.

Collina. Large, satiny, deep purple bells. 9 in. 35c.

Fenstrellata. A form of *Garganica* with smooth foliage and soft blue star-like flowers. 35c.

Garganica. Compact rosettes of handsome foliage literally covered with bright blue stars in June and July.

Glomerata Acaulis. Cluster heads of deep violet flowers. Very dwarf.

Isophylla. Lovely for walls and large stones in the rockery. White flowers one inch across in great profusion. 35c.

Isophylla Mayi. A lavender blue form of *Isophylla* with downy foliage. 50c

Lasiocarpa. Pleasing neat rosettes of shiny toothed leaves. The handsome powder blue bells are borne erect on 3-5 in. stems. June-Sept. 50c.

- Muralis.** (*Portenschlagiana*). Attractive mats of deep green foliage with many starry violet bells. June-November. 4 in.
- Persicifolia Moerheimii.** Fine waxy double white flowers. 30 in.
- Persicifolia Pfitzeri.** Fine large double blue. 30 in.
- Planiflora.** Smooth rosettes of shiny leaves and tight little spikes of large white flowers. A miniature *Persicifolia*. Rare. 50c.
- Poscharskyana.** A fine new trailing campanula with quantities of soft blue flowers from May to October.
- Pseudo-Raineri.** Charming plant with very large purple flowers. Compact and free flowering. One of the best. 35c.
- Pulla.** Broad masses of bright green foliage with large shining purple blue bells on thread-like stems. 2-3 in. 50c.
- Pulloides.** A magnificent version of *Pulla* with larger flowers. 50c.
- Raddeana.** Glossy scalloped leaves and deep purple bells. 9 in.
- Rotundifolia Purple Gem.** Glorious shade of deep purple. More floriferous than the type. 8 in. 50c.
- Rotundifolia Robinsoni.** Large violet bells freely produced on 6-9 in. stems.
- Sarmatica.** Many spikes of pale blue bells. 35c.
- Sartorii.** Mats of hairy foliage and lovely lilac bells. A very dainty and desirable new variety. 50c.
- Stansfieldii.** Soft hairy leaves and short, branched stems sending up pendant bells of soft warm violet. 4 in. 50-75c.
- Tommasiniana.** A beautiful late blooming species with many tiny pale purple bells on slender wiry stems. A real treasure. 6 in. 75c.
- Warleyensis.** Similar to *Isophylla*, but with very double flowers of softest blue. Very fine and distinct. 50c.
- Warleyensis Alba.** A pure white form of the above. 50c.
- CARLINA Acaulis.** Spiny rosettes of silvery foliage with large sessile straw-colored flowers which close at the approach of rain.
- CASSIOPE.** See Heather.
- CENTAUREA Kingdon Ward Species.** S. Round humps of feathery green foliage with hoary reverse. 50c.
- CENTAURIUM (Erythraea) Diffusa.** S-sh. Pink Gentian. A neat brilliant free flowering little plant bearing a profusion of waxy rose-pink flowers in late summer. 35c.
- CERASTOSTIGMA Plumbaginoides.** (*Plumbago Larpentae*.) Dwarf. Spreading habit; bronze foliage, deep blue flowers in fall. Desirable. 6-8 in.
- CHELANDRUM Zawadski.** Rosettes of shiny leaves and white silene-like flowers. 6 in.
- CHICORIA Species.** S. Double pink. Choice double flowers of soft clear pink. Long season bloomer. Fine for border or large rockery. 3 ft.

CHIONODOXA. B. Blooms with the crocuses. Dwarf spikes of starry flowers. Very desirable.

Gigantea. Very large light blue flowers. 75c per doz.

Lucilliae. Sky blue flowers with white centers. 50c per doz.

Sardensis. A rich blue self. Earlier than the above. 50c per doz.

CISTUS. S. Sun Rose. Fine shrubs for hot sunny places.

Crispus. An interesting little bush with deep rose colored blooms. Late blooming. 35c.

Florentinus. A fine species with spreading branches and white flowers. 1 ft. 35c.

Villosus. Beautiful shrub with bright rosy flowers. 12-18 in. 35c.

CLEMATIS *Davidiana.* Erect habit. Small sweet scented blue flowers in clusters. 2 ft. 35c.

Integrifolia. Large deep blue flowers with white centers on flopping two foot stems. 50c.

CODONOPSIS *Ovata.* Trailing plants with soft hairy leaves and light blue bells beautifully patterned within with orange and purple. 35c.

COLCHICUM. B. Autumn Crocus or Meadow Saffron. The flowers which resemble large crocuses, appear without foliage after the first fall rains. They are free flowering and bloom for a long period. The glossy green foliage, much like that of a tulip, appears in spring.

Autumnale Album. Pure white. 25c each.

Autumnale Minor. Lovely orchid lavender. 25c each.

Bornmuelleri. The grandest of all colchicums. Blooms earlier and with much larger flowers of tender lilac rose. 75c each.

Parkinsonii. Narrow wavy leaves. Checkered blossoms of deep lilac rose and white. 25c each.

Speciosum. Rosy mauve. 25c each.

CONVOLVULUS. Perennial Morning Glory. Persistent summer bloomer. These forms do not spread.

Cantabricus. Gray foliage and fine pink blooms all summer and fall. 50c.

Mauritanicus. More trailing than the former with lush foliage and lavender blue flowers. Persistent and profuse bloomer.

COPTIS *Trifolia.* Gold Thread. Good ground cover for shade with finely cut deep green foliage.

CORYDALIS. S-sh. Fine ferny foliage. Constant bloomers. Suitable for walls.

Bulbosa. A bulbous form with dainty orchid flowers in early spring. Plant in late summer. 50c.

Lutea. Lemon yellow flowers. Easy and good.

COTONEASTER *Humifusa.* (Dammeri) Slender creeping stems; leaves one inch long. Solitary white flowers followed by red berries. 25-50c.

Microphylla glacialis. A slow growing species that hugs the rocks. It has small leaves which are grayish underneath, and pinkish

flowers which are followed by red berries. Very neat and attractive. 75c.

COTULA Squalida. A good bulb cover with fine ferny foliage.

CROCUS. B. Spring Flowering. These are for fall delivery.

Susianus. Intense golden yellow blooms, varnished brown outside, 5c each.

Tommasinianus. Pale lavender, outside silvery gray. 5c each.

Versicolor Picturatus. White, outside feathered violet. 5c each.

Autumn Flowering. Mid-summer delivery.

Speciosus. Very blue lavender with orange center. Exquisite. 5c each.

Sativus. Saffron Crocus. Delicate lilac with red stigmata. 5c each.

Zonatus. Soft rosy lavender with yellow center surrounded by orange zone. Ethereal and lovely. 5c each.

CRYPTOMERIA Japonica Nana. Compact light green globular dwarf evergreen. Will not exceed 18 inches. 25-50c.

CUPRESSUS Lawsoniana Fletcheri. A dense close growing miniature tree with soft silvery green foliage. Excellent for the rockery. 50c-\$1.00.

CYCLAMEN. Hardy variety. Handsomely marbled leaves. Flowers varying through all shades of pink. Autumn and winter blooming. Very choice. Likes lime. 50-75c.

White Cyclamen. Rare and beautiful white flowered form. 75c.

CYNOGLOSSUM Grande. S-sh. Western native. Large hairy leaves and spikes of large blue forget-me-nots. 12-15 in.

CYPREPEDIUM. S. The grandest of the hardy orchids. Likes moisture. Plant shallow.

Fasciculatum. A rare species from southern Oregon with spikes of dainty pink and brown flowers. 60c.

Montanum. Oregon native with white and brown flowers on 12 in. stems. 50c.

Pubescens. Yellow Lady Slipper. The dainty deep yellow slippers are borne several on a stem. 50c.

Spectabile. Showy Lady Slipper. Huge blossoms of rosy purple with white segments. 50c.

CYTISUS.—See Brooms.

DALIBARDA Repens. S. Dainty creeper with geum-like leaves and single white flowers.

DAPHNE. Early blooming shrubs with very fragrant flowers.

Blagayana. A noble creeping species with evergreen foliage and very early flowers of pale creamy yellow. Choice and rare. Stock limited. \$3.00.

Cneorum. Fine evergreen shrub for the rockery with heads of fragrant pink flowers. 8-12 in. 50c-\$1.50

Mezereum. Deciduous shrub. Fragrant lilac purple blossoms appearing before the foliage. Feb.-April. Small plants. 25-50c.

DELPHINIUM Tatsiense. Choice and new. Brilliant peacock blue flowers produced over a long period. 14 in. 35c.

DIANTHUS. S. Pinks are among the finest rock garden subjects. They are of easiest culture in poor soil. Our collection contains most of the desirable rock garden species.

Alpinus. Very dwarf with large, deep rose colored flowers. 35c.

Caesius. Blue-gray foliage. Rosy fringed flowers. 6 in.

Caesius Icombe. A particularly fine form of Caesius.

Carthusianorum. A fine cluster head with starry flowers varying from rosy magenta to crimson.

Cruentus. Blood red cluster head with grassy foliage.

Deltoides. Free flowering, rose, from June to August. 4 in.

Deltoides Alba. Fine white form of the above.

Gelidus. Dwarf, with large rose pink flowers. 50c.

Highland Queen. A great favorite. Single rose colored blossoms with dark eye. Fragrant. 9-12 in.

Lacinatus Albus. Fringed white flowers. Sweet scented and dainty.

Neglectus. A very beautiful sort. Grassy tufts of foliage with brilliant blossoms of cherry rose with buff reverse. 35c.

Peresteri. A tiny development of Deltoides with short stemmed pink flowers on compact mounds of foliage. 35c.

Roysii. Similar to Neglectus, but larger. 4-6 in. 35c.

Seguieri. Rosy purple flowers. Very late bloomer. 12 in.

Sundermannii. Large waxy white flowers with a distinct jasmine odor. New and rare. 4-6 in. 35c.

Sylvestris. Dense grassy tufts from which spray arching stems carrying big clear pink flowers. 35c.

Sylvestris Frigidus. Similar to the above, but more dwarf. 35c.

Winteri. Large single flowers in various colors. 6 in. 35c.

DICENTRA. S. Bleeding Heart. Finely cut foliage and flowers in racemes.

Cucullaria. Dutchman's Breeches. Dwarf, with glaucous leaves and white flowers.

Eximia. Rose pink flowers over a long period.

Oregana. (Glauc). Attractive silvery foliage and creamy white flowers. Choice, rare Oregon native. 10 in. 35-50c.

Oregana Pink. A fine pink flowered form of Oregana. 35c.

DIERAMA Pulcherrima. Australian Wand flower. Pink to red flowers borne on slender arching stems. Iris-like leaves. 5 ft. 35c.

DIGITALIS Lutz Hybrids. Soft salmon pink Fox Gloves with darker spots.

DODECATHON. Sh. Shooting Stars. Bird's Bills.

Campestris. Narrow leaves and pinkish flowers.

Dentatum. Toothed leaves and white blossoms.

Hendersonii. Rosettes of thick leaves and showy heads of purple flowers. 8-10 in.

Jeffreyi. Taller and later with paler flowers.

DOUGLASIA Laevigata. S-sh. A charming high alpine from the coast range in Oregon. Inch high cushions of foliage studded with glowing flowers of rosy pink. 50c.

Vitaliana. Gray green rosettes with citron yellow flowers.

DRABA Olympica. Mossy mats of foliage with golden flowers. Early.

DRYAS Octapetala. Makes flat evergreen carpets of little oak leaves with dainty waxy white flowers followed by silvery seed whorls. Good. 50c.

Sundermanni. A hybrid of the above with larger flowers. 35c.

EDELWEISS. See *Leontopodium*.

EDRIANTHUS Dalmatica. Basal rosettes of shiny leaves and pretty blue flowers. 3 in.

EPIGAEA Repens. Sh. Trailing Arbutus. Creeping evergreen with delicate pink-tinted flowers. Exquisite fragrance. Acid soil. 50-75c.

EPIMEDIUM. S-sh. Attractive evergreen plants with shiny bronze leaves and dainty flowers in loose spikes. Blooms early.

Lilacinum. (Violaceum). Dainty lavender flowers. 50c.

Macranthum Roseum. Rosy pink flowers. 50c.

Niveum. Lovely white flowers. 50c.

Sulphuem. Largest of the group. Pale yellow flowers. 50c.

ERANTHIS Hymaelis. B. Winter Aconite. One of the first flowers of spring. Bright yellow flowers resembling buttercups, rising from an encircling collar of fringy green. 50c per doz.

ERICA. See Heather.

ERIGERON. S. Similar to aster in appearance, habits and needs.

Mucronatus. A trailing species bearing pretty pink and white daisies from June till autumn.

Uniflorus. Tiny high alpine. Attractive pink daisies springing from dark green rosettes of leaves. 3 in. 35c.

ERINUS Alpinus Hybrids. Charming wall or crevice plant with white to rose colored blooms.

ERIOPHYLLUM Ceasptosum. S. Oregon Sunshine. Bright yellow daisies with finely-cut hoary foliage. 12 in.

ERODIUM. S. Fine rock garden subjects similar to hardy geraniums.

Amanum. Ferny gray foliage and large pearly white flowers. 35c.

Chamaedryoides Roseum. Mats of scalloped foliage with bright rosy flowers on very short stems. Persistent bloomer.

Cheilanthes folium. Lacy gray foliage and soft pink flowers with deeper veins. 35c.

Chrysanthum. Lovely gray foliage and sulphur yellow blossoms. Distinctive and rare. 75c.

Corsicum. Tufts of crinkly velvety foliage with rosy pink flowers. 50c.

Macradenum. Soft ferny green foliage and a succession of delicately veined pink flowers marked with two dark blotches all summer. 4 in. 35c.

Manescavi. Ferny foliage and rosy magenta flowers. 10 in.

ERYTHREA. See *Centaureum*.

ERYTHRONIUM. B. Dog-tooth violet. Should be planted in fall. Light shade.

Giganteum. Large cream colored flowers. 10c.

Grandiflorum. Bright yellow flowers. Leaves plain green. Early. 10c.

Hendersonii. Lovely soft lavender with mottled leaves. 10c.

Johnsonii. Rose pink flowers and mottled foliage. Very fine. 10c.

Klamathensis. Soft yellow flowers with pink margins. Lovely. 10c.

Parviflorum. Bright yellow flowers on 10 in stems. 10c.

Rose Beauty. Large, deep rose pink flowers. 10c.

EUONYMUS Kewensis. Mat-forming trailing evergreen with small shiny rounded leaves and red berries. 50c.

Varietgata. An attractive evergreen with variegated green and white leaves which are touched red in winter. 50c.

EUPHORBIA. S. Likes hot situations with good drainage.

Myrsinites. Prostrate evergreen with blue-green foliage and yellow flowers in early spring, 35c.

Polychroma. A neat symmetrical plant with glaucous foliage and showy heads of yellow bracts. 12 in. 50c.

FERNS

We have an unusually complete collection of ferns, some of which are suited to rockery conditions, while others are adapted to the shaded garden. These forms are all hardy, and will prove a welcome addition to the garden.

ADIANTUM Pedatum. Sh. Maidenhair Fern. Delicate light green finely cut foliage. Very airy, 12-15 in.

ATHYRIUM Filixfemina. (*Cyclosorum*). Sh. Lady Fern. Fine large lacy fronds.

- ASPLENIUM Platyneuron.** Narrow, black-stemmed fronds. 5-10 in. 35c.
Trichomanes. Maidenhair Spleenwort. Delicate fronds, much like Maidenhair. Dry conditions in shade. 3-4 in.
- CAMPTOSORUS Rhizophyllus.** Sh. Walking Fern. Simple, tapering evergreen leaves which take root at the apex, forming a lovely carpet of attractive foliage, 35c.
- CHEILANTHES Densa.** (Pellaea Densa). Finely-cut wide green fronds. Sun or shade. 3-5 in.
Gracillima. Lace Fern. Very lacy and delicate. Rock crevices in well drained soil. Likes a north exposure. 4 in. 50c.
Lanosa. Fine lacy fern with silvery reverse. 6-8 in. 35c.
Tomentosa. Somewhat similar to Lanosa, but less compact. 35c.
- CRYPTOGRAMMA Acrostichoides.** Parsley Fern. A lovely feathery fern. Good for hot dry rocks. 5 in.
- DENNSTEDTIA Punctilobula.** Hay scented fern. Dense mats of fragrant fronds. 1 ft.
- DRYOPTERIS Arguta.** Sh. Finely cut evergreen fronds. 14 in. 35c.
Clintoniana. Sh. Clinton's Woodfern. Fine evergreen fern. 3 ft. 35c.
Cristata. Sh. Crested Woodfern. Beautiful dark green fronds. 2-3 ft. 35c.
Nevadensis. Sh. Fragrant Fern. Light green finely cut fronds. 8-14 in. 35c.
Noveboracensis. Sh. New York Fern. Pale green leaves tapering both ways from the middle. 1-2 ft. 35c.
Spinulosa. Sh. Shield Fern. Large wide lacy fronds. 2 ft.
Spinulosa Var. Dilatata. Sh. Leaves more nearly triangular than the type. 2 ft.
- ONOCLEA Sensibilis.** Sh. Large broad triangular leaves. Very hardy and easy.
- OSMUNDA Cinnamomea.** Sh. Cinnamon Fern. Showy large fern with 2-4 ft. fronds. Young growth covered with rusty wool. 35-50c.
Claytoniana. Sh. Interrupted Fern. Similar to the above, but young growth covered with white wool. Imposing. 35-50c.
Regalis. Sh. Royal Fern. Handsome wide branching fronds of pale green. A very beautiful fern. 3 ft. 35-50c.
- PELLAEA Atropurpurea.** Attractive gray green fronds with black stems. Stands sun and drought well. 8 in. 50c.
Brachyterpis. Finely cut blue green fronds. Fine and new. Sunny rocks. 4 in. 50c.
- PITYROGRAMMA Triangularis.** Gold Back Fern. Dry conditions in light shade.
- POLYPODIUM Vulgare.** Sh. Western Licorice Fern. Makes nice cover for shady rocks.
- POLYSTICHUM Acrostichoides.** Sh. Christmas Fern. Evergreen dagger-like fronds. 12-18 in.

- Andersoni.** Sh. Rare species similar to Brauni. 18-24 in. \$1.00.
- Brauni.** Sh. Graceful lacy fronds. Stems covered with brown scales. 18-24 in... 75c.
- Lonchitis.** Sh. Holly Fern. Long stiff narrow fronds with prickly edges. 15 in. 50c.
- Munitum.** Sh. Western Sword Fern. Large clumps of evergreen fronds.
- Plumosum Compactum.** Sh. A very beautiful fern with lacy, plume-like fronds of pale green. Attractive in the garden or as a house plant. Probably tender in the east. 50c.
- Viviparum.** Sh. Like the above, with longer less lacy fronds. 25-50c.
- SCOLOPENDRIUM Vulgare.** Sh. Eastern Hart's Tongue. Broad, leathery entire leaves. Rare and choice. 50-75c.
- Vulgare Crested.** Lovely waved and crested forms. 75c.
- STRUTHIOPTERIS Nodulosa.** Sh. Ostrich Plume Fern. Large fronds growing in a circle from the crown. Showy and easy. 4 ft. 35-50c.
- Spicant.** S-sh. Deer Fern. Oregon Native. Heavy leathery evergreen fronds with rounded pinnae. 35-50c.
- WOODSIA Cathcartina.** Sh. Low growing with narrow, finely divided fronds. Rare. 50c.
- Ilvensis.** Sh. Rusty Woodsia. Stems covered with brown wool. Dwarf.
- Oregana.** Sh. Lacy, narrow light green fronds.
- Scopulina.** Sh. Dwarf and dainty. 50c.
- WOODWARDIA Radicans.** Sh. Great Chain Fern. To 4 ft. 50c-75c-\$1.00.
-
- FESTUCA Glauca.** S. Dwarf blue-gray tufted grass.
- FRITILLARIA.** B. Natives with drooping bell-shaped flowers. Fall delivery.
- Lanceolata.** Brown and green speckled flowers. 12-14 in. 15c.
- GALANTHUS.** B. Snowdrop.
- Byzantium.** Flowers like Elwesii, broad leaves. Very early. 10c each.
- Elwesii.** Giant Snowdrop. Dainty white drooping flowers, blooming very early. Largest of all snowdrops. 65c per doz.
- Nivalis.** Similar to the above, but smaller. 60c per doz.
- Nivalis flore-plena.** Double Snowdrop. Similar to the preceding but with double flowers. 75c per doz.
- Nivalis Scharloki.** Very distinct variety. Lovely green-tipped white flowers. 10c each.
- GALAX Aphylla.** Sh. Attractive shiny rounded leaves bronzy in tone, and leathery in texture. Fine ground cover for woodland. 50c.
- GAULTHERIA Humifusa.** A very compact evergreen creeper from the high Cascade Mts. with rounded, leathery leaves. 50c.
- Procumbens.** Sh. Wintergreen. Evergreen carpenter with attractive glossy foliage and white flowers followed by red berries. 35-50c.

GENISTA. See Brooms.

GENTIANA. Some of the most gorgeous blues in the garden.

Acaulis. S. *Gentianella*. One of the most beautiful alpines, the incomparable big blue trumpet gentian. Rich shining blue. Blooms spring and fall. 3 in. 35c-50c-75c.

Acaulis Clusii. Longer stemmed than the above. Blooms darker. 35c-50c-75c.

Acaulis Excisa. A larger, finer acaulis with taller stems. 50c.

Asclepiadea. S-sh. Willow Gentian. Fine arching stems with lovely deep blue trumpets in great profusion. A very lovely late bloomer of easiest culture. 50-75c.

Bisetae. S-sh. Dwarf with large blue flowers with white throat. Peaty soil. 50-75c.

Crucata. Deep blue flowers in clusters. Easy and vigorous. Late.

Farreri. S-sh. Lovely sky-blue trumpets surrounded by grassy foliage. Semi-prostrate. August till frost. Likes moisture in peaty soil. Very choice. 50c-\$1.00.

Macaulayi-Well's Var. Hybrid of *Farreri* and *Sino-Ornata*. Midway between the two in color. Strong compact growth. Easy. 75c-\$1.00.

Menziesii. A dwarf Oregon native with clusters of small deep blue semi-open flowers. 35-50c.

Newberryi. Rare Oregon native of compact growth. Fine blue flowers. White inside with greenish spots. \$1.00.

Oregana. S-sh. Broad funnel-shaped flowers. 12-8 in. 75c.

Orfordi. A dwarf from the Oregon coast with trailing stems. 50-75c.

Parryi. Showy deep-blue trumpets two to five on a stem. 12 in. 50-75c.

Purdomii. Very choice, flowers of deep cobalt blue. 50c.

Sceptrum. An Oregon native with deep blue semi-open flowers. 2 ft. 35c.

Septemfida. The most dependable sort. Beautiful blue-fringed Bells in fine clusters. July-Sept. 12 in. 50c.

Sino-Ornata. Finest of autumn flowering gentians. Fine dark blue trumpets from Oct. to Dec. 4 in. 50-75c.

Veitchiorum. Lovely alpine with beautiful royal purple trumpets. \$1.50.

GERANIUM. These hardy geraniums bloom through a long season and are of easiest culture in a sunny location.

Armenum. Dark red flowers. Robust habit. 12-18 in. 35c.

Cinereum. Grayish foliage and large pink flowers. Dwarf. 50c.

Endressii. Rose colored blossoms continuously produced. 9-12 in. 35c.

Grandiflorum. Large ultramarine flowers. 14 in. 35c.

Ibericum. Fine violet blue flowers. The foliage assumes rich autumnal tints. 16 in. 35c.

Napuligerum. (*Farreri*). A very choice geranium with lovely light pink flowers with black stamens. Very rare. \$1.00.

- Pylzowianum.** Attractive cut leaves on frail stems, and flights of large pink blossoms. 3 in. 50c.
- Sanguineum Lancastriense.** Fine prostrate foliage and lovely soft pink flowers. 35c.
- Subcaulescens.** Dwarf tufted plant with glowing carmine flowers. Silvery gray foliage. Handsome. New. 3-5 in. 75c.
- GEUM. S.** Interesting both for flowers and foliage. Easy.
- Borisii.** Large vivid orange flowers. One of the finest. May-Oct. 35c.
- Hybrid Bronze.** Fascinating large flowers of a fine bronze shade. 8-10 in. 35c.
- Montanum.** S-sh. One of the most desirable species. Neat shiny foliage and large golden flowers. 3-6 in. 50c.
- Rivale.** Leonard's Var. Nodding coppery pink blossoms. 8 in.
- GLOBULARIA.** Evergreen metallic foliage and blue flowers in heads.
- Bellidifolia.** Intermediate in size between Nana and Cordifolia. Good. 2 in. 35c.
- Cordifolia.** Bluish glossy foliage. Flowers, fuzzy blue balls. 35c.
- Nana.** Tiny prostrate shrub covered in early June with fluffy blue balls. 35-50c.
- ORMANIA Laxa.** Sedum-like rosettes and pink flowers.
- GYPSOPHILA.** Baby Breath. Attractive low, much branched plants with clouds of tiny flowers.
- Repens.** Blue-gray mats covered in May and June with countless lovely white stars.
- Repens Rosea.** Dainty rose form of the above.
- Repens Bodgersi.** New dwarf with semi-double flowers. 12 in. 50c.
- HABENARIA Fimbriata.** Sh. A lovely terrestrial orchid. 14 inch spike studded with dainty fringed blossoms of exquisite lavender pink. Very rare. 50c.
- HABERLEA.** Closely resembles Ramondia, but with gloxinia-like blossoms. Likes a cool, moist crevice in the rocks.
- Rhodopensis.** Crinkled, thick leaves and fine lavender flowers speckled with gold. 75c-\$1.25.
- Rhodopensis Ferdinandi-Coburgi.** A finer, ampler form of the above. Very choice. 75c-\$1.50.

HEATHER

The dwarf heathers, which are such good shrubs for the rockery, are listed under so many scientific names, that it is difficult for the ordinary gardener to keep track of them all: therefore we have sought to simplify matters by listing them all under one heading. There are no finer rock garden shrubs than the heathers; their foliage is always neat and the fact that the different sorts bloom at

different seasons, makes it possible to have one or another in bloom at almost any time of year.

CALLUNA Vulgaris Alba. White flowers in late summer, dark foliage turning purplish in winter. 8-10 in. 35-50c.

Vulgaris Alba Var. Hammondii. Dense spikes of purest white flowers. Fine bright green foliage unchanged by winter weather. 8-10 in. 50-75c.

Vulgaris Alportii. Of more vigorous growth with rosy carmine flowers. 50-75c.

Vulgaris Argentea. Silver tipped foliage with pink flowers. 50-75c.

Vulgaris Aurea. Carpets of rich golden bronze foliage in winter. 25-50c.

Vulgaris Cuprea. Coppery foliage turning bright red in winter. Pale purple flowers. 50-75c.

Vulgaris Minima. A gem for the rockery. Very compact mossy foliage. Purple flowers. 4-6 in. 25-50c.

Vulgaris Mrs. H. E. Beall. Very lovely soft pink double flowers. Very free flowering. New and choice. \$1.00.

Vulgaris Multiplex. Double flowers darker than the above. 75c.

Vulgaris Rubra. Red Heather. Beautiful plant completely covered with brilliant red flowers in mid-summer. Very fine. 18 in. 75c.

CASSIOPE Mertensiana. An alpine gem with slender branches clothed with scale-like foliage. Numerous white nodding bells. Slow growing. Enjoys shade. 12 in. 75c-\$1.00.

DABOECIA Polifolia. (Irish Bell Heather). Symmetrical little bush covered with large pink vase-shaped blooms from mid-summer till autumn. 25-50c.

Polifolia Alba. A fine white form of the above. 25-50c.

ERICA Carnea Rosea. Charming with pink flowers from November to March. Very free flowering. Especially good for winter color. 35c-50c-75c.

Carnea Alba. Fine white form of the above. 50c.

Carnea Coccinea. Handsome deep rose-colored form of Carnea. 35-50c.

Carnea King George. Lovely dark toned flowers. Brilliant and colorful. One of the best. 50-75c.

Carnea Springwood. Very prostrate foliage and lovely long-tubed flowers of pure white with attractive chocolate colored anthers. New. \$1.00.

Carnea Vivellii. Dark green summer foliage turning bronze-red in winter. Bronze buds and brilliant carmine red flowers. 50-75c.

Ciliaris. Fine summer bloomer with spikes of rosy purplish flowers. June-Sept. 18 in. 50c.

Cinerea. Reddish purple blossoms all summer. 35-50c.

Hybrida Darlyensis. Rosy pink flowers all winter. 35-50c.

Hybrida Dawn. Semi-prostrate with soft hairy leaves. New growth brilliantly colored. Large rich deep pink bells. 35-50c.

- Hybrida Williamsi.** Close shrubby plant with bright green foliage. Rose pink flowers appear at tips of twigs during late summer. 50c.
- Tetralix.** Produces large soft pink bells in pretty terminal clusters for many weeks. June-Oct. 50c.
- Vagans Lyonesse.** Pure white bells with chocolate colored anthers. Fall delivery. New. 75c.
- Vagans Mrs. D. F. Maxwell.** Very fine flowering. Deep pink blossoms. New. June-Oct. \$1.00.
- Vagans St. Keverne.** Bright clear pink flowers. July-Oct. 50-75c.
- PHYLLODOCE Empetriformis.** Stocky branches clothed in brilliant green foliage. Bright pink flowers. Slow growing. 12 in. 75c.
-
- HEDERA Conglomerata Nana.** An attractive slow growing ivy with close set frilly leaves. Turns purply-bronze in winter. 35c.
- HELENIUM Hoopesii.** Pure orange daisies 3 inches across. 18-28 in.
- HELIANTHEMUM. S. Rock Rose.** Showy small shrub for walls and banks with shiny foliage and rose-like flowers. Very profuse bloomers.
- Apricot.** Large apricot flowers and wide glossy foliage.
- Ben Ledi.** Large flowers of crimson lake. New and fine. 35c.
- Ben Nevis.** Yellow with brownish-crimson central zone. New. 35c.
- Boule de Feu.** Double flowering deep red.
- Burnt Orange.** Pumpkin colored flowers. Glossy foliage.
- Double Orange.** Attractively frilly flowers of bright orange.
- Double Yellow.** Fine clear yellow double flowers.
- Lemon Queen.** Large single flowers of bright yellow.
- Rhodanthe Carneum.** Silvery foliage and rosy pink flowers.
- Single Pink.** Lovely blooms resembling wild roses.
- Single White.** Clear white flowers with golden centers.
- Tomato Red.** Attractive bright flowers with deeper centers.
- Tuberaria.** Mats of broad glossy leaves and spikes of yellow flowers.
- HELLEBORUS. S-sh.** Hardy herbaceous plants with attractive palmately divided leaves. They flower in winter and very early spring. Well established plants bloom very freely.
- Corsicus.** Handsome, prickly evergreen foliage which is unimpaired by frost. Flowers are large, pale, clear green in fine clusters. Very rare. Jan.-March. \$1.00.
- Foetidus.** Magnificent frost-resistant foliage and pale green flowers tipped with brown. Beloved of bees. Feb. 75c.
- Niger.** Christmas Rose. Blooms throughout early winter. White, anemone-like flowers tinted with apple-blossom pink. Very rare. \$1.00.
- Niger Altifolius.** A taller, whiter Niger of more robust habit. Very fine. Rare. \$1.00-\$1.50.
- Orientalis.** Similar to Niger, but varying from pink to purple and chocolate brown. Later and taller than Niger. 50-75c.

- HELONIAS Bullata.** Sh. Terrestrial orchid with rosettes of evergreen shiny leaves and spires of starry pink flowers. Moist situation. 50c.
- HEMEROCALLIS Hybrids.** S. Day Lily. A wide variety of fine shades and colors grown from seeds of named varieties.
- HEPATICA.** Sh. Small anemone-like flowers in very early spring.
Marmorata. Dark marbled leaves and blue flowers. Rare. 50c.
Triloba. Flowers pink, white or blue.
- HESPEROCHIRON Pumila.** S. Sun Cup. Western native with thick basal leaves and wide-open stemless cups of white, pink or pale lavender.
- HEUCHERA.** Coral Bell. Attractive basal foliage and airy flower spikes.
Alba. Dainty white bells.
Cascade. A new large flowered shell pink. 35c.
Hybrids. Lovely colors from cream to deep red.
Pluie de Feu. Very fiery red. 35c.
- HOUSTONIA Coerulea.** Sh. Bluet. A dainty creeper sprinkled over with large blue stars.
- HUTCHINSIA Alpina.** A true alpine with mossy green foliage covered with dainty white flowers in spring. 35c.
- HYACINTHUS Azureus.** B. Broad scilla-like leaves and spikes of exquisite clear pale blue bells. Dwarf and very early. 10c each.
- HYPERICUM.** S. St. John's Wort.
Coris. A choice shrublet with clouds of sparkling golden flowers. Very choice and rare. 35c.
Corsicus. A neat little shrub with small leathery leaves with wavy margins of lighter green and bright yellow flowers. New. 75c.
Olympicum. Blue-gray foliage. Large yellow flowers.
Rhodopeum. Distinct species with soft silver-gray foliage and fine golden flowers. Attractive throughout the year. 8 in.
- IBERIS Correaefolia.** Glossy dark green leaves and masses of white flowers in May. 8 in. 35c.
Saxatilis. A lovely prostrate Candytuft with fleshy leaves and white blooms. Persistent bloomer. Choice and rare. 2 in. 50c.
- INCARVILLEA Delavayi.** Hardy Gloxinia. Attractive pinnate foliage and rich rosy trumpets. 12-14 in. 50c.
- INULA Ensifolia.** Narrow leaved tuffets of foliage. Numerous golden daisies on 6-9 in. stems.
- IRIS.** See Iris Section.
- JASMINIUM Parkeri.** An attractive rounded bushling with finely divided leaves and green stems. Large yellow flowers in summer. Choice and rare. Fall delivery. \$1.00.
- JUNIPERUS Communis Depressa Aurea.** Golden trailing juniper. Fine golden foliage. Small plants. 25-50c.

KALMIA Polifolia Microphylla. S-sh. A fine dwarf evergreen, with leathery dark green leaves and heads of dainty pink bell-shaped flowers in spring. Acid soil. 8-10 in. 75c.

Polifolia Microphylla Nana. An attractive variation of the above. Lower growing and more compact. 75c.

KALMIOPSIS Leachiana. A native evergreen shrublet with small dark green leaves and pink kalmia-like blossoms. One of the very choicest shrubs for the rockery. New and very rare. \$1.00.

LAVANDULA. Dwarf Lavender.

Atropurpurea Nana. Silvery gray foliage and intensely purple blooms. 10 in. 35-50c.

Grenoble. Fine, distinct wide-leaved French form. 35c.

Munstead. Compact habit. Blue flowers. 12 in.

Pedemontana. Aromatic foliage and deep purple blooms.

LEONTOPODIUM Alpium. Edelweiss. A well known alpine with woolly flowers. A fur lined daisy. 25-50c.

LEUCOCRINUM Montanum. Lovely native Star Lily. Narrow foliage and clusters of almost stemless fragrant white flowers. Sharp drainage.

LEUCOJUM. B. Snowflake.

Aestivum. Summer Snowflake. Lovely green-tipped white bells on arching 12 in. stems. Very dainty and lovely. May. 15c each.

Autumnale. Delicate pink-tinged white bells on slender wiry, 3 in. stems. Likes sandy soil. Slightly tender. Sept. 25c each.

Vernum. Spring Snowflake. Green tipped white flowers usually borne singly on 6-8 in. stems. Late winter and early spring. 25c each.

LEWISIA. S-sh. Oregon natives requiring sharp drainage.

Brachycalix. Fine ample rosettes bearing a profusion of 2 in. stemless white flowers, sometimes tinted pink. 50c.

Columbiana. Rosettes of thick leaves. Clusters of pale pink flowers. 35c.

Columbiana Rosea. Shinier leaves. Deep rose flowers produced over a long period. Good. 50c.

Heckneri. Spiny edged leaves with pink or white flowers. New and rare. 50c.

Howellii. Lovely crimped grayish-green foliage with radiating heads of soft apricot flowers. 35c.

Oppositifolia. Very lovely with white blossoms faintly tinged pink. Deciduous.

Rediviva. S. Satiny pink flowers before the leaves. Deciduous.

LINUM. Perennial Flax. Long season bloomer. Very graceful.

Flavum. Very fine yellow. 10 in.

Hirsutum. Graceful plant with grayish foliage and silvery blue flowers. 18 in. 75c.

- Narbonnense.** Best of the blue flowered flaxes. 18 in. 30c.
- Perenne.** Intense sky blue flowers. 18-24 in.
- Salsoloides.** Arching stems 6-8 in. high with many clear opalescent flowers. Good. 50c.
- Salsoloides Nanum.** Mats of fir-like foliage almost smothered with hundreds of lucent white flowers. Rare and choice. 2 in. 75c.
- Viscosum.** Rare species with oval leaves and large soft lilac rose flowers. 12 in. 50c.
- LITHOSPERMUM Prostratum.** Heavenly Blue. A fine prostrate evergreen shrub with glorious azure flowers. 35-50c.
- LOISLEURIA Procumbens.** (Azalaea Procumbens). Delightful minute shrub with fine pink flowers. Rare and choice. \$1.00.
- LOTUS Corniculatus flore-plena.** A hardy trailer for dry banks and rock work. Fine bulb cover with showy double yellow flowers.
- LUTKEA Pectinata.** Prostrate trailing mossy foliage. Light yellow flowers. Resembles a mossy saxifrage. Oregon native. 35c.
- LYCHNIS Alpina.** Neat tufts of foliage with heads of rose colored stars.
- Viscaria Splendens.** Spikes of brilliant carmine flowers. 12 in.
- Viscaria Splendens flore-plena.** Double form of the above. Good.
- MAZUS Reptans.** Mats of bright green leaves and soft lavender snapdragon-like flowers.
- MENTHA Requieni.** Dense green mint-scented carpeter.
- MERTENSIA.** S-sh. Bluebells.
- Elongata.** Tubes of deep china blue. Brilliant and delicate.
- Nutans.** Narrow glaucous leaves and hanging bells of lovely blue with pink buds. Rare. 50c.
- Pulchella.** A lovely native with exquisite clusters of drooping flowers. 6-8 in. 35c.
- MICROMERIA.** Aromatic bushlings with dainty flowers over a long period.
- Juliana.** Wiry stems and tiny pinkish flowers. June-July. 6 in.
- Libanotica.** Silvery gray with lavender pink flowers. July. 8 in.
- MITCHELLA Repens.** Sh. Partridge Berry. Neat evergreen creeper with white flowers followed by attractive red berries. 35c.
- MORISIA Monanthos.** (Hypogaea). S. A charming carpeter with bright green leaves and many solitary golden flowers over a long period. Needs gritty soil. 50c.
- MUSCARI.** B. Grape Hyacinth.
- Argeai Album.** A late blooming variety with small spikes of pure white flowers. 75c per doz.
- Armenaicum.** Early giant. Many stalks of deep cobalt blue flowers with a white rim. 75c per doz.

Azureum. Bright blue, flowering in March. One of the most valuable early spring flowers. 50c per doz.

Azureum Amphibolis. Delicate pale blue flowers. Later than Azureum. 75c per doz.

Botryoides Album. Lovely pure white. Early. 50c per doz.

Moschatum Flavum. Purple, turning clear yellow. Choice. \$1.00 per doz.

Moschatum Major. Purple, turning to pale yellow upon opening. Deliciously fragrant. \$1.50 per doz.

Paradoxum. Tall spikes of interesting brownish-purple flowers. 75c per doz.

Plumosum. Feather Hyacinth. Lovely and curious flowers with feathery spikes of delicate lilac flowers. 6 in. \$1.50 per doz.

NARCISSUS. B. The varieties listed below are all dwarf forms suited to the rockery.

Bulbocodium. Hoop petticoat daffodils.

Citrinus. Sulphur yellow. 6-8 in.

Clusii. White. 4-6 in.

Conspicuous. Deep yellow. 6-8 in. 20c.

Canaliculatus. Bunch flowered like the Chinese lily with yellow cup and cream colored perianth. Fragrant. 6-8 in. 20c.

February Gold. Perianth golden yellow, trumpet fringed orange. Early.

Minimus. Smallest of all trumpet daffodils. Tiny bright yellow flowers in early spring. 50c.

Minor. A charming miniature Golden Spur daffodil. 50c.

Moschatus. A cream white daffodil with drooping perianth. 10 in.

Queen of Spain. Soft, delicate light yellow with graceful reflexing perianth. 12 in.

W. P. Milner. Small charming sulphur yellow flowers.

NEPETA. Showy flowered mints for border or rockery.

Mussini. Silvery foliage and clouds of lavender flowers all summer.

Nuda. A bluer, more upright Mussini.

NIEREMBERGIA Rivularis. Inch-high dark green leaves and large pearly white cup-shaped flowers in great profusion. 35c.

OENOTHERA. Evening Primrose.

Pusilla. Small glossy tufts. Tiny yellow blooms. 4 in.

Taraxacifolia. Distinct dandelion-like rosettes and many large sessile flowers which open white but change to rose. Good.

OMPHALODES Verna. S-sh. Neat, oval pointed leaves with loose sprays of deep rich blue forget-me-nots. 6 in. 50c.

ONOSMA Tauricum. Lovely Gold Drop. Rough hairy foliage with sprays of dainty drooping bells of soft yellow. Very fragrant. Choice long season bloomer. 35c.

ORGIANUM. Marjoram. Aromatic bushlings with dainty clusters of blooms.

Pulchellum. Grayish foliage and rose colored flowers.

Virens. Paler than the above.

OROBUS Vernus. A dainty small bush with an abundance of blue and violet pea-shaped flowers.

OXALIS Adenophylla. Tufts of crinkly gray green leaves and fine lilac pink flowers. A very choice plant. 50c.

PAEONIA Brownii. Much divided bluish-green leaves with single red and yellow flowers. 50c.

Tenuifolia flore-plena. A lovely species with delicate, finely cut foliage and deep velvety red double flowers with prominent golden stamens. A rare plant. Stock limited. Fine clumps. \$2.00.

PAPAVER. Hardy poppy.

Oriente flore-plena. Double red Oriental poppy.

Oriente Sass Pink. Soft flesh pink. New. 50c.

Rupifragum. Silvery foliage and salmon orange flowers. 12 in.

PARONYCHIA Dichotoma. Attractive creeping plant similar to phlox with showy yellow flowers in late summer.

PENSTEMON. S. American natives. Showy snap-dragon-like flowers.

Barrettiae. Oregon native with silvered foliage and spikes of rosy lavender flowers. 10 in. 35c.

Cardwellii. A native evergreen species with showy red violet flowers produced in profusion several times a year. 10 in. 35c.

Corymbosus. A fine shrubby species with bright red flowers. 18 in. 50c.

Davidsoni. Tiny compact prostrate evergreen shrub with large brilliant purplish blossoms. 2-3 in. 35c.

Jeffryanus. A very fine species with silvery foliage and rich deep blue flowers. 35c.

Menziesii. Evergreen creeper with large purple flowers. 5 in. 35c.

Procerus Minor. A low growing evergreen with blue flowers. 4 in. 35c.

Rupicola. Gray green foliage. Cherry red blooms. Choice. 35c.

PERAMIUM Decipiens. (Goodyeara Menziesii). Sh. Rattlesnake Plantain. Deep green foliage strikingly netted and veined with white.

PHLOX. Choice America natives with starry flowers.

Adsurgens. S-sh. Choice Oregon native. Fine evergreen foliage and beautiful large clear pink flowers. Creeping habit. A real gem. 35-50c.

Amoena. Dwarf, with bright pink flowers. Good.

Caespitosa. S. A dense tufted plant with white or pale lavender flowers. Very compact. Needs good drainage. 50c.

Nivalis Hybrids. Similar to subulata, but blooming later.

Mary Alice. Light pink with red eye. 35c.

Sir Guilford. Coarser foliage and large deep pink flowers. 35c.

Ovata. Broad foliage and brilliant pink flowers. 6-10 in.

Rigida. Cushions of mossy foliage and large white flowers. Choice. 75c.

Subulata. Prickly evergreen foliage with sheets of bright flowers.

Alba. Fine white blossoms and light foliage.

Apple Blossom. White, tinted pink. Lovely. 35c.

Atropurpurea. Dark foliage and deep red blooms. Distinct.

Blue Hills. Compact. Flowers blue, tinged lavender. 35c.

Brittoni. White star-like flowers and fine foliage. Distinct and lovely. 50c.

Camla. (*Camlaensis*). The very best, with immense salmon pink flowers freely produced over a long period. 50-75c.

Fairy. Pale lilac with purple eye. Very dainty.

G. F. Wilson. Fine lavender flowers.

Maischnee. Fine white flowers. New. 35c.

Moerheimii. Carmine pink flowers. Compact.

Rosea. Rosy pink flowers.

Schnee Witchen. Mounds of neat foliage covered with white flowers in early spring. New. 35c.

Sprite. Unusually large pink flowers with red eyes. Good.

Vivid. Brilliant rose. Compact. One of the best. 35c.

PHYLLOLOCE *Empetriformis*. See Heather.

PHYTEUMA *Schuchzeri*. Attractive campanuloid plant with dense green rosettes and heads of deep violet flowers. Easy. 10 in. 50c.

PIMELEA *Coarctica*. Rare New Zealand Daphne with glaucous foliage and fluffy white flowers followed by pearly berries. Very dwarf. Fall delivery only. Small plants. \$1.00.

PLATYCODON *Mariesii*. Handsome deep blue bells. Late summer. 8-10 in.

PLUMBAGO *Larpentae*. See *Cerastostigma*.

PODOPHYLLUM *Peltatum*. Sh. May Apple. Waxy, sweet-scented white flowers nearly hidden by large handsome scalloped leaves.

POLYGONUM. *Affine*. Good ground cover with evergreen leaves which turn bronzy red in the fall. Pink flowers on 8-10 in. stems. All summer. 25-50c.

Vaccinifolium. Prostrate shrubby species with attractive leaves and dainty pink flowers in autumn. 25-35c.

POTENTILLA. Effective rock plants with leaves and flowers somewhat resembling those of strawberries.

Cinerea. A dainty creeper with lovely yellow flowers. 2 in.

Fragiformis. Silvery velvety leaves. Large golden flowers. 3 in.

Leander. Attractive compact foliage and large, deep rose-colored flowers. Highly recommended. New. 4-6 in. 35c.

Miss Wilmott. A lovely plant with cherry red flowers. Long blooming season. 12 in.

Nevadensis. Pretty evergreen tufts with small but brilliant yellow flowers. 3 in. 35c.

- Nitida.** Tuffets of silvery gray foliage with pink flowers. Choice. 50c.
Pinnatifida. Ferny foliage and yellow flowers. 4 in.
Rupestris Pygmaea. A white flowered form of rare charm. 2-4 in. 35c.
Tonguei. Very beautiful apricot flowers with crimson centers. Dwarf and very choice. 35c.

PRIMULA. Primrose.

- Acaulis.** Bright flowers borne singly. Mixed. Early.
Acaulis Blue. Mixed shades only. 35c.
Acaulis Double Lavender. Fine delicate lavender flowers. 35c.
Acaulis Double White. Beautiful white form of the above. 35c.
Clusiana. A rare and lovely alpine with fine rosettes of glossy pointed leaves and clusters of beautiful large flowers of glowing carmine with a white eye. 3-4 in. 75c.
Juliae. Dwarf mats of glossy foliage and starry claret flowers with golden eyes. 35c.
Juliae Alba. An exquisite white form of P. *Juliae*. \$1.00.
Acaulis-polyanthus hybrids of Juliae. Mixed seedlings. 35c.
Gloria. Magenta crimson with golden eye. 50c.
Helenae. Very dwarf burgundy red. Very free flowering. 50c.
Helene Purpurkissens. Very deep purple flowers. Very choice. 50c.
Jewell. Intense magenta. 75c.
Juliana. A beautiful light violet. 50c.
Morton's Hybrid. Purplish crimson. 50c.
Primrose Lodge. A polyanthus hybrid. Deep crimson flowers in clusters. 35c.
Purple Splendor. Gorgeous royal purple with large flowers. 50c.
Vulcan. Violet purple. 50c.
Wanda. A fine deep violet. Especially good. 50c.
Marginata. Smooth rosettes of grayish green leaves edged with white. Fragrant pinkish-lavender flowers. March-April. Rare. \$1.00.
Minima. Tiny glossy rosettes of sharply toothed leaves and large stemless flowers of soft lucent rose. Rare. 1 in. 75c.
Officinalls. Cowslip. Mixed colors. Fragrant.
Polyanthus. Fine blossoms in umbels on tall stems.
Mixed colors. A wide range of lovely colors.
Hose-in-hose. Soft yellow only. 35c.
Rosea Grandiflora. Very early bloomer whose deep pink flowers appear before the foliage. Likes moisture and shade. 50c.
Sieboldii. Light green foliage and wide heads of beautiful flowers varying from white to reddish pink. Mixed shades. 50c.
Spectabilis. Rosettes of shiny leaves and heads of rosy flowers with white eyes. 75c-\$1.00.

PTEROCEPHALUS Parnassii. (*Scabiosa Parnassii*). S. Silvery cushions of foliage and large pink scabiosa-like flowers. Choice and rare. 35c.

PUSCHKINIA Libanotica. B. Scilla-like flowers. White petals striped blue. 10c.

PYRETHRUM. Painted Daisies.

Grandiflorum. Double and single flowers. Pink to dark rose.

Langport Scarlet. A particularly fine deep red.

RAMONDIA. Sh. Choice alpinas with fine rosettes of crinkly leaves and beautiful flowers. Need deep, well drained soil in rock crevices with a northern exposure.

Nataliae. Neat, flat rosettes of glossy foliage and four-petalled flowers of loveliest lavender blue with orange-gold centers. Rare. \$1.00-\$1.25.

Pyrenaica. Dark green foliage. Large soft lilac blue five-petalled flowers with golden eyes. Rare and beautiful. 75c-\$1.00.

RANUNCULUS. Buttercup.

Glaberrimus. Very finely cut foliage and large brilliant yellow flowers on 3 in. stems. Early.

Gramineus. Glaucous tufts of grass-like leaves. Lovely deep yellow flowers. 6-8 in. 35c.

Montanus. Dwarf, with golden flowers on 6-8 in. stems. Choice and rare. 50c.

RETINOSPORA Squarrosa Nana. Dwarf evergreen with soft, heavy, compact foliage. 2 ft. Small plants. 25-50c.

RHODODENDRON Species. These are small, slow growing species suitable for a rock garden.

Impeditum. A fine dwarf lavender blue. \$1.00.

Intricatum. Rich lavender blue, grayish foliage. \$1.00.

Myrtifolium. Pink flowers. 3 year old plants. \$1.50.

Racemosum. (*Mucronulatum*) A rhododendron with rose-like flowers. Very early. 3 year old plants. 75c-\$1.00.

Racemosum. (*Virgatum Series*). A beautiful species with small pink flowers in profusion. 75c-\$1.00.

ROMNEYA Coulteri. Matilija Poppy. Silvery green leaves and large lovely single white flowers with golden centers. Late blooming. 4-5 ft. 35-50c.

ROSA. Rose. These are dwarf species suitable for the rockery.

Alpina. Dwarf habit. Lovely crimson flowers. 1 ft. 75c.

Arvensis. An intensely prickly bushlet with large single creamy yellow flowers. 8 in. 75c.

Nitida. Densely prickly stems and glossy leaves turning crimson in autumn. Flowers bright rosy red followed by shining black hips. 18 in. 75c.

Rouletti. The tiniest rose. Dainty foliage and bright double pink flowers. Nearly everblooming. 4-8 in. Choice. 35-50-75c.

- Spithamea.** Attractive bright pink single flowers in clusters. 8 in. 50c.
- ROSMARINUS Officinalis Prostratus.** An interesting prostrate rosemary
Soft blue flowers. Aromatic. 3 in. 50c.
- SAGINA Subulata.** Fine mossy ground cover. Tiny white flowers.
Subulata Aurea. Golden form of the above.
- SANGUINARIA Canadensis.** Sh. Blood Root. Blue gray scalloped leaves
and waxy white flowers with golden stamens. Early.
- SATUREIA. S.** Aromatic small bushes with wiry stems and attractive
flowers produced over a long period in late summer.
Cuneifolia. Deep green foliage and masses of blush white flowers in
spikes. Aug.-Nov. 6 in.
Intricata. Smaller leaved than the above, with abundant white flowers.
Aug.-Nov. 5 in.
Montana. Winter Savory. Soft lilac flowers. Late. 8 in.
Pygmaea. Especially delightful small form of the above. 3-5 in.
- SAXIFRAGA.** Saxifrage. Especially fine rock garden plants.
- ENCRUSTED SECTION.** These plants form handsome rosettes of nar-
row, leathery leaves, which in most cases are encrusted with a limy
deposit. They usually have white or pale yellow flowers. They offer
no cultural difficulties and flower in May or June.
Aizoon Alba. Dense rosettes of foliage. White flowers. 6-8 in.
Baldensis. Tiniest of the aizoons. Very compact, white flowers. 50c.
Cochlearis. Humped domes of silvered rosettes bearing graceful
red stemmed sprays of large white flowers. 4-6 in. 50c.
Densa. Medium sized silvery rosettes and white flowers. 4-6 in. 35c.
Lagroveana. Similar to *Baldensis*, but larger with creamy flowers.
4 in.
Lutea. Attractive species with pale yellow flowers.
Rex. Handsome small rosettes with mahogany red flower stems
and fine creamy white flowers. Choice. 35c.
Rosea. Rose colored form.
Gaudinii. Fine leathery rosettes and pink flowers spotted white. 35c.
Lingulata Lantosca. Fat little rosettes, heavily encrusted and grace-
ful plumes of white flowers. 10 in. 50c.
Macnabiana. Highly colored in winter. Flowers white with pink spots.
8-10 in. 35c.
Paradoxa. Fine rosettes of long narrow foliage edged with conspicu-
ous beading. White flowers. 50-75c.
Pyramidalis. Broad rosettes. Large panicles of showy white flowers.
2 ft. 35-50c.
- KABSCHIA SECTION.** Sh. Very dwarf alpines of close tufted habit.
Flowers usually white or yellow. Early blooming. Like good drainage.
Apiculata. Spiny green rosettes. Primrose yellow flowers. 35c.
Apiculata Alba. White form of the above.

Burseriana Magna. A most attractive plant blooming in earliest spring with large white blossoms on pink stems. 3 in. 50-75c.

Burseriana Sulphurea. Similar to the above, but with yellow flowers. 50-75c.

Elizabethae. Gray green foliage. Abundant yellow blooms. 50c.

Faldonside. Gray green rosettes and large citron yellow flowers. Very fine. \$1.00.

Ferdinandi-Coburgi. Similar to Elizabethae. Deeper yellow flowers. 35c.

Godseffiana. Blue gray rosettes. Yellow flowers. 35c.

Haagil. Dark spiny foliage and rich yellow blooms. Early. 35c.

Irvingii. Dense blue gray rosettes. Fine pink flowers. A real gem. 50-75c.

Obristii. Lovely blue gray tuffets and fine large white flowers with red calyxes and stems. Very choice. 75c.

Paulinae. The finest yellow flowered Kabschia. Lovely gray green cushions. Large pale yellow blooms in profusion. Choice. 2 in. \$1.00.

Petraschii. Silvery cushions and fragrant white flowers. 50-75c.

Sancta. Neat green foliage with silver beading. Yellow flowers. 35c.

MISCELLANEOUS GROUP.

Beesiana. Large, richly colored rounded leaves and fine trusses of deep pink flowers. Deeper than the usual form. 35c.

Decipiens Guilford's Hybrids. S-sh. Lovely shades of white, pink or rose colored flowers. Forms a soft evergreen carpet.

Decipiens H. S. Stokes. S-sh. Fine mossy variety with carmine flowers.

Fortunei. Sh. Broad leaves with reddish-bronze reverse and sprays of airy white flowers. Especially valuable on account of its late blooming season. Sept.-Oct. Rare. 50c.

Peltata. Moisture loving with immense leaves on 2-3 ft. stems. Wide heads of fine pink flowers. 50c.

Umbrosa Primuloides. Dwarf London Pride. Compact and fine with pink flowers. 8 in. 35c.

Umbrosa Primuloides Elliott's Var. Very dwarf. Especially good pink flowers. 3-4 in. 50c.

SCILLA. B. Lovely spring flowering plants with small hyacinth-like blooms.

Campanulata. Delicate blue or white bells. 5c each.

Campanulata Rosea. A soft lilac rose form of Campanulata. 75c per doz.

Peruviana. Fine wide spikes of brilliant blue flowers. Very showy and fine. Distinct and different. 25c.

Siberica. Blue. Very early. Drooping bell-like flowers on 3-4 in. stems. Lovely for rock garden. 75c per doz.

SCUTELLARIA Aplina. Spreading mats with lavender flowers. 6 in.

Indica Japonica. Attractive velvety gray foliage and lavender blue flowers through late summer and fall. 3 in. 35c.

SEDUM. S. These are useful plants of easy culture with fleshy leaves and bright flowers. They are invaluable for walls and stepping stones. Beside the varieties listed below, we have **Arboreum**, **Dasyphyllum**, **Ewersii**, **Middendorffianum**, **Obtusatum**, **Oregonum** and several others.

Cape Blanco. A particularly choice form of *Spathulifolium* with tight gray rosettes and yellow flowers. Oregon native.

Kamschaticum. Trailing. Bright orange flowers.

Kamschaticum Variegatum. Variegated form of the above.

Purdyi. Flat rosettes of leaves resembling *sempervivums*. Choice and distinct. 35c.

Sieboldii. Red-edged glaucous leaves. Heads of pink flowers. Sept.

Spathulifolium. Glaucous foliage. Yellow flowers. Fine.

Stahlil. Dwarf yellow flowered sort. Foliage tinged red in mid-summer.

SEMPERVIVUM. S. Hen and Chickens. Succulent plants of easiest culture. Good in poor soil. The nomenclature of these plants is in such a confused state that the task of naming and describing them is quite hopeless. We have about thirty varieties, each quite distinct from all the others. We will send a collection of twelve sorts, all different for \$2.00. If you have any particular type in mind, write us about it. We can probably supply it.

SHORTIA Galacifolia. Tufts of green glossy leathery leaves with pale pink five-lobed bells in early spring. Fine winter color. Choice. 4 in. 35-50c.

SILENE. Charming plants allied to *Dianthus*.

Acaulis. Moss-like tufted plant with sessile pink flowers. 2 in.

Acaulis Nordica. Deeper colored form of *acaulis*. 35c.

Acaulis Kodiak Var. Alaskan sp. with slightly larger foliage than the type and very large flowers of a pleasing clear pink very freely produced. New and rare. 2 in. 50c.

Hookeri. S. Large lobed flowers of salmon pink, and silvery gray foliage. A very striking plant. Wants good drainage. 8 in. 35c.

Maritima. Mats of glaucous foliage. Crinkly white flowers.

SISYRINCHIUM Grandiflorum. Grass Widow. Large satiny bells of imperial violet in earliest spring.

SOLDANELLA. S-sh. Small leathery rounded leaves and lovely nodding fringed bells of orchid pink in earliest spring.

Alpina. Attractive foliage and deep orchid blooms borne singly on 3 in. stems. Choice and rare. 50c.

Montana. More stately, larger species with several shallow fringed blossoms of lavender lilac on 6 in. stems. Rare. 50c.

Pusilla. A tiny species with tubular orchid pink bells on 2-4 in. stems. Choice. 50c.

SOLIDAGO Cutleri. Alpine Goldenrod. Bright plumes of golden flowers in July. 5 in. 50c.

- SOLOMONENSIS Chiliensis.** Attractive irid with green grass-like foliage and a succession of lovely bright yellow flowers. Probably tender. Rare and choice. 50c.
- SPIRAEA Bullata.** Dwarf shrub with deep pink flowers in attractive corymbs. Crinkled foliage. Choice. 12 in. 75c-\$1.00.
- Decumbens.** A delightful bushling with wiry stems and clusters of white flowers throughout the summer. Charming. New. 6-8 in. 50c.
- Filipendula Flore-plena.** Fern-like foliage in a neat flat rosette and 12 inch sprays of creamy white double flowers.
- Hendersonii.** Dense mats of silky rounded leaves with heads of cream white blossoms. Rare and choice. Western native shrub. \$1.00.
- SPRAGUEA Multiceps.** Pussy Paws. Flat rosettes of fleshy bronzy leaves and fluffy radiating heads of soft pink lowers. Moraine.
- STACHYS Corsica.** Fine carpeting plant with light green leaves and white lobelia-like flowers.
- STERNBERGIA Lutea.** B. Lovely fall blooming crocus-like flowers of golden color and fine substance. Mid-summer delivery. 25c each.
- SYNTHIRIS.** Oregon natives. Neat rosettes of leathery leaves and spikes of showy flowers in very early spring.
- Petiolatum.** (Cordatum). Attractive leaves longer and more pointed than the type. Fine blue flowers. New southern Ore. species. 35c.
- Pinnatifida.** Fringed wooly gray leaves and dainty plumes of deep blue flowers. Rare and new. 75c.
- Stellata.** Toothed kidney-shaped leaves. Spikes of blue flowers. 6 in.
- Sweetzeri.** Like the above, but larger with deep violet blue flowers.
- TEUCRIUM.** S. Thyme-like plants.
- Chamaedrys.** Glossy evergreen foliage. Bright rose colored flowers in spikes. July-Sept. 12 in.
- Marum.** Very gray foliage and pink flowers. 8-9 in. 35c.
- THALICTRUM.** Fine fern-like foliage and fluffy flowers in spikes.
- Chelidonii.** Large rosy lilac flowers on 9 in. spires. Choice. 50c.
- Kyusianum.** Very dwarf with fine feathery foliage and soft lavender blooms on 4-5 in. stems. Choice and lovely. \$1.00.
- Petaloidium.** Very distinct. Columbine-like foliage and ivory white flowers. June-July. 12 in. New. 50c.
- THYMUS.** S. Thyme. Valuable aromatic subjects for carpeting hot dry spots, for bulb covers and for walls.
- Alsinoides.** Bushy, with round, light green leaves.
- Angustifolius.** Tiny thick-set leaves. Purple cast in winter.
- Aureus.** Bushy type. Golden foliage.
- Azoricus.** Fine neat gray evergreen foliage and lilac flowers.
- Balticum No. 2.** Choice new creeper with hairy foliage.
- Cimicinus.** Trailing, with tiny leaves. Purplish cast in winter.

Citriodorus. Lemon scented thyme. 8-10 in.

Argenteus. Silver leaved lemon scented thyme.

Aureus. Golden leaved lemon scented thyme.

Croaticus. Low growing with dark green leaves. 3 in.

Erectus. Stiffly erect. Very effective. 8 in.

Ericaefolius. Heath-like rounded bushlets. Bronzy. Carmine flowers. 4 in.

Herba-barona. Perfectly prostrate creeper. Anise odored.

Hirsutus. Small round fuzzy blue-green leaves. Creeping habit.

Lanicaulis. Loose growing, with gray alyssum-like leaves.

Marschallianus. Very fine with lovely pink flowers. 35c.

Membranaceus. Delightful novelty. Flowers surrounded by startling papery bracts. For a sheltered sunny corner. 4 in. 50c.

Micans. Tidy close clumps, starry and wiry in effect.

Nummularius. Sweet scented mat-forming species. Late blooming. Glossy foliage.

Russian Species. Long trailing stems. Thick round leaves. Gray.

Serpyllus. Creeping Thyme.

Albus. White flowered form with pale green leaves.

Annie Hall. Lovely pale pink flowers. Light green foliage. New. 35c.

Chamaedrys. A larger lanuginosus. More free flowering.

Coccineus. Darker foliage. Crimson flowers.

Coccineus Splendens. More brilliant than the above.

Lanuginosus. Woolly thyme. Gray velvet foliage. Lavender flowers.

Lanuginosus Hall's Variety. Much more profuse blooming type.

Minus. Neat and tidy. Ideal alpine lawn plant.

Roseus. Rosy pink flowers.

Vulgaris Fragrantissimus. Distinct variety with gray foliage. Very fragrant.

TRILLIUM. Sh. Fine plants for the woodland. Mid-summer or fall delivery.

Cernuum. Nodding white flowers with pink stamens.

Chloropetalum. Sessile trillium. Very large flowers, white to dark red.

Erectum. Mahogany red flowers. 10 in.

Luteum. Sessile yellow flowers. Mottled leaves. Tennessee native. 10-20 in. 35c.

Nivale. Very tiny plants with white flowers. Very early. 2 in.

Ovatum. Western Trillium. Large white flowers becoming pink with age.

Petiolatum. Narrow dark red flowers.

Rivale. Oregon native. White flowers slightly speckled brown. 3-4 in.

Simile. Clear white flowers on upright pedicels. Darker in center. 35c.

Stylosum. Lovely soft rosy flowers in April and May. 10 in.

Undulatum. Painted Trillium. Large wavy white flowers marked in the center with crimson.

TRITELEA Uniflora. B. Narrow leaves and starry blue tinted white blossoms over a long period. Early.

TROLLIUS. S-sh. Attractive plants with neat foliage and bright flowers.

Austrian Sp. Fine deep orange double flowers with lacinated petals. Very beautiful. 2 ft. 50c.

Europaeus. Luminous yellow globes. Likes moisture. 35c.

Pumilus. Dwarf, with finely cut leaves and golden yellow single flowers. Rare. 50c.

TULIPA Kaufmanniana. B. Water Lily Tulip. Flat creamy blossoms with golden centers and carmine reverse. Early. 25c each.

TUNICA Saxifraga. Airy foliage and clouds of light pink blossoms all summer.

Saxifraga flore-plena. Fine double form. Very free flowering. 35c.

VERONICA. A vast and variable family containing some of the best blues for the rockery.

Cupressoides Nana. Attractive rounded bushlets with evergreen leaves. resembling small globular evergreens. Interesting and distinct. 35c.

Gentianoides. Glossy gentian-like foliage. Spires of soft blue flowers. 8-12 in.

Nummularia. Charming ground cover with smooth shiny roundish leaves and pale blue flowers. Quite distinct.

Prostrata. Dwarf species with brilliant blue flowers.

Repens. Trailing species with pale blue blossoms.

Rupestris Rosea. Spikes of soft pink flowers. Good.

Saturoides. Early flowering mat-forming species with dark blue flowers. 2 in.

Saxatilis. Prostrate. Shiny foliage and deep blue flowers. Fine.

Spicata. Violet blue flowers on 12 inch spikes.

Spicata Alba. Dwarf white form.

Teucrium Trehani. Dwarf bush with fine blue flowers and golden foliage.

VIBURNUM Opulus Nanum. A dwarf snowball, very compact. Lovely fall color. 1 ft. 50c.

VINCA Alpina. Small foliage. Compact habit of growth. Double flowers of attractive rosy violet.

Bowles Variety. Rich blue flowers of large size. Very floriferous.

VIOLA Species. Sh. Violets.

Adunca. Our most showy wild blue violet. Heart shaped evergreen leaves and large flowers on 4 in. stems.

Arenaria Rosea. Tufted violet with rose colored flowers in summer.

Blanda. Tiny white flowers. Fragrant.

- Beckwithii.** Deciduous cut-leaf type with two upper petals purple and lower ones pale violet. Oregon native.
- Chrysantha.** Deciduous native with finely cut foliage and large yellow flowers of fine substance with brown reverse.
- Hallii.** Oregon native. Wild Pansy. Finely cut foliage. Two upper petals dark violet, lower three yellow or cream. Good. 35c.
- Nuttallii.** Fine yellow flowers and hairy lanceolate leaves.
- Odorata.** Sweet violets.
- Charm.** Soft pale lavender flowers. New and distinct.
- Double Russian.** Very fragrant deep violet double flowers.
- Marie Louise.** Pale lavender blue. Double. 35c.
- Rosina.** Deliciously fragrant. Old rose flowers.
- Swanley White.** Choice double white. 35c.
- Pedata.** Bird's Foot Violet. Eastern native. Cut foliage. Large pale violet blossoms. Needs acid soil. Long season bloomer.
- Pedata Bicolor.** Exquisite form of the above with the two upper petals royal purple. A very beautiful flower. 35c.
- Riviniana.** Fine alpine violet with light blue flowers. Long season bloomer.
- Septentrionalis.** Large white flowers more or less lined with violet.
- Trinervata.** Bicolor deciduous native with finely cut gray leaves.
- WAHLENBERGIA Pumilio.** Attractive dense silvery cushions of foliage with fine violet blue flowers. A rare treasure. 2 in. \$1.00.
- XEROPHYLLUM Tenax.** Squaw Grass. A striking mountain plant with clumps of tough grass-like foliage and tall fluffy spires of creamy white flowers. We advise spring planting. 75c-\$1.00.

IRIS SECTION

The iris is one of the most versatile plants. There are dwarf varieties, and tall, stately kinds which reach a height of four feet or more. There are iris blooms as dainty as orchids, tall flamboyant bearded irises, and deep sombre varieties from the Orient. There are few weeks in the year in which some sort of iris does not bloom, and few situations in the garden where some variety will not thrive. There is a great range of color also: white, yellow, orange, bronze, and all shades of blue, violet and purple—in fact nearly every color except bright red.

We are glad to welcome visitors to our garden at any time, even in winter when the lovely iris *Stylosa* is in bloom. In March many of the bulbous irises flower, and early in April the dwarf bearded irises begin to bloom. From then until July the garden is full of color. We recommend a visit to our gardens in the blooming season, as we feel that better selections can be made if the plants are seen in bloom in the field. It is impossible to give an accurate description of the many delicate shades of color in the few words which are available to us in the catalogue. If you are interested in tall bearded irises, we will be glad to send you our list.

BEARDLESS IRIS SPECIES

Acoroides. Similar to *Pseudacorus*, but more dwarf with larger ruffled flowers. Sulphur yellow. 2 ft. \$1.00

Arenaria. See Palestine Iris.

Bloudowii. See Palestine Iris.

Bracteata. Wide scanty foliage, shiny on the upper surface. Large deep yellow flowers veined purple brown. Choice Oregon native. 4-6 in. 75c.

Carolina. Flowers lilac with purple variegations. Leaves light green. 2-3 ft. 50c.

Chrysophylla. Lovely low growing species with white or soft yellow flowers veined purple. Oregon native. 6 in. 35c.

Chrysographes. Blossoms deep rich velvety purple, conspicuously veined with gold. Choice and rare. \$1.00.

Chrysofor. Hybrid *Chrysographes* and *Forrestii*. Variable. Attractive combinations of blue shades with yellow. 35c.

Cristata. A lovely little species with tiny wide-open lavender flowers with darker markings on the falls. Fine for the rockery. 2 in.

Cristata Alba. S-sh. A rare white form of *Cristata*, with lighter green foliage. Singularly pure and lovely. 50c.

Delavayi. Siberica type. Beautifully veined and spotted blue on a white ground. Produces a fine effect. 32 in. 75c.

Dichotoma. Vesper Iris. White to purple. Flowers fleeting, but produced in profusion from Aug. to Oct. 24-30 in. 35c.

Dorothea K. Williamson. Deep velvety purple flowers of unusual beauty and substance. 35c.

Douglasiana. Oregon native. Masses of evergreen foliage. Flowers two

to a stem, freely produced. Varies from deepest purple through mauve and lavender to white. 12-18 in. 35c.

Dwarf purple. Grows only 10 in. high. 35c.

Tall light blue. Showy ruffled pale blue flowers. Late. 24-30 in. 35c.

White. A most unusual and beautiful pure white. Very large flowers. Early. Rare. 16 in. 50c.

Douglasiana, Special Forms. We are happy to be able to offer a number of collected and hybridized color forms of *Iris Douglasiana* which have never before been listed. They are exquisite shades unusual in these irises. At present these are unnamed, so we are offering them by number. No. 8. Cream with wine overlay on falls. No. 16. Deep creamy yellow, very fine. No. 27. Lavender with blue tinting. No. 75. Large flowered deep cream. We have a number of other fine forms which we will be able to list next year. \$1.50 each.

Foetidissima. The seed pods remain on the plant in winter, bursting open and displaying rows of orange red seeds. Flowers inconspicuous, foliage evergreen. 18-24 in. 50c.

Foliosa. Deep velvety flowers and abundant foliage. 4-6 in.

Forrestii. Grassy foliage and lovely clear yellow blossoms. 15-18 in. 50c.

Fulva. Unique and striking terra-cotta red. Distinct. 18-24 in. 50c.

Fulva Yellow. Very rare exquisite yellow color form of *Fulva*. \$2.00.

Fulvala. Similar to *D. K. Williamson*, but more coppery in tone. 35c.

Gracillipes. S-sh. Dainty small crested flowers of light pinkish mauve on slender wiry stems. Crest bright orange. 6-10 in. 25-50c.

Gracilipes Alba. Exquisite white form of this lovely species. New and rare. \$2.00.

Gormanii. Similar to *Tenax*, but with soft yellow flowers. Choice. 50c.

Graminea. Violet and blue flowers. Plum scented. 8 in. 50c.

Hookeri. Large deep blue-purple flowers with rudimentary standards. 75c.

Hyacinthiana. Attractive flowers of soft blue and sulphur yellow with fine brown veins. Early. Exceptionally good. 50c.

Innominata. A rare new species from southern Oregon with slender grass-like leaves and showy ruffled flowers of good size. Free flowering.

Orange. Deep, brilliant orange. Very beautiful. 75c.

Yellow. Bright yellow more or less heavily veined brown. 50c.

Japonica. S-sh. Dainty, frilly orchid-like blossoms of soft lavender with orange crests, in airy sprays. Early.

Lacustris. Similar to *Cristata*, but with smaller, darker flowers.

Laevigata Albo-purpurea. Good for water or ordinary garden conditions. The flat blossoms have a white ground, heavily flecked with blue-purple. 14 in. 75c.

Laevigata Semperflorens. An iris for shallow water, bearing lovely flowers of uniform deep blue with a striking yellow blotch on the falls. Blooms constantly from mid-summer to November in our pool. A very fine addition to the water garden. 3 ft. \$1.00.

- Longipetala.** Robust and floriferous. Several flowers veined violet, on a white ground, are borne on a stem. California. 50c.
- Macrosiphon Hybrid.** A particularly fine rose shade. \$1.50.
- Minuta.** A tiny species of great rarity. The dainty light yellow flowers neatly marked with brown and borne on very short stems. Early. \$1.00.
- Missouriensis.** Slender foliage and attractive flowers with dark blue veining on a white ground. Rocky mountains. 35c.
- Prismatica.** Lilac purple blooms with a yellow throat and darkened veins. Very dainty and desirable. 16 in. 35c.
- Purdyi.** Flower form similar to *Bracteata*, but foliage is narrower. Colors vary from white to lavender. 6-8 in. 50c.
- Ruthenica.** Dwarf with deep blue purple flowers. Rare. Good. 35-50c.
- Sintensisii.** South Italian form. Slender species. Flowers heavily mottled and dotted with blue on a white ground. 8 in. 50c.
- Stylosa Speciosa.** (*Unguicularis*). Winter blooming iris. For milder climates. The deep blue flowers are borne amid the grass like foliage on perianth tubes about 8 inches long.
- Tectorum.** Japanese roof iris. Violet blue frilled petals. Very large wavy crest. Interesting and lovely. 12-15 in. 50c.
- Tectorum Album.** A lovely white form of *Tectorum* with a beautiful golden crest. \$1.00.
- Tenax.** S-sh. Fine large lavender blooms and grassy foliage. 10-12 in.
- Tenax Selected.** Lovely color forms varying from white through buff, salmon, apricot and pale yellow. These are personally collected forms which have been most carefully selected for their unusual coloring. Mixed shades. 75c each.
- Tenuis.** Sh. Flowers white with a few purple veins and a patch of yellow on the center of the falls. Rare Oregon native. 6-8 in. 35c.
- Thompsoni.** Similar to *Innominata*, but with lavender blue flowers. 50c.
- Verna.** Sh. Lovely dwarf with bright blue flowers with a central orange ridge on the falls. Acid soil. 35c.
- Vinicolor.** A striking plant with fine wine-colored blooms. 2-3 ft. \$1.00.
- Wilsonii.** A rare species with yellow flowers somewhat veined with brown on the falls. 18-24 in. \$1.50.

BULBOUS AND TUBEROUS ROOTED IRIS

These irises are very beautiful and fairly easy of culture in a well drained situation. Fall delivery only.

- Bucharica.** Wide light green foliage. The plant bears several fine creamy yellow flowers at the top of each stem and one in each leaf axil. Floriferous and long blooming, beginning in February. 12 in. 75c.
- Persica.** A strikingly beautiful dwarf species with white flowers tinged with pale sea green. Velvety black falls. Blooms very early. 4 in. \$1.25.

Reticulata. A rare and beautiful iris with deep purple blossoms of velvety texture with a golden streak on the center of the falls. Good for the rockery. Blooms in Feb. and March. 35c.

Reticulata Hercules. Deep bronzy-violet, broad petalled form with orange crest. Very distinct and fine. New. \$1.00.

Sindpers. Large ruffled flowers of exquisite powder blue with golden markings on the falls. Blooms with reticulata. Rare. \$1.00.

Tuberosa. A very odd, exceedingly fragrant variety with apple green flowers, with a lip of velvety blackish purple. 12 in. 50c.

Xiphioides. English Iris. Finest mixed. \$1.00 per doz.

PALESTINE IRIS

These are very fine sorts belonging to the *Oncocyclus* and *Regelia* sections and their hybrids. All have large flowers of striking and unusual colors. They bloom with the intermediate bearded irises and should be planted where they can be allowed to bake in the summer.

Arenaria. Very dwarf with lovely bright yellow flowers with an orange beard on 1 to 2 in. stems. Free flowering. April. 35c.

Bloudowii. Similar to *Arenaria*, but taller and a little later. Buds, brownish black opening into brilliant golden flowers. 3-4 in. 50c.

Charon. A handsome velvety flower of unique coloring. Beautiful bronze veined with deeper brown. 15 in. \$1.50.

Hermione. A beautiful variety with large flowers deeply veined mulberry on a lighter ground with conspicuous dark beard. One of the finest *Regelio-Cyclus* hybrids. \$1.50.

Hoogiana. Fine soft uniform blue admirably set off by the golden beard. Distinct and beautiful. 18 in. 50c.

Nemesis. *Regelio-Cyclus* hybrid. Gorgeous wine purple. Rounded segments beautifully veined in deeper tone. Conspicuous dark beard. \$1.00.

Stolonifera. Handsome species with flowers blended brown and purple, shot with electric blue. 50c.

POGO-CYCLUS HYBRIDS

These are hybrids of the regular tall bearded irises and the Palestine types. They have the characteristic form and easy disposition of the tall bearded irises, but from their Oriental parentage they have inherited rich and distinct combinations which are quite unique in the iris world. They are about the same height as the intermediate irises.

Carmello. Soft gray blue with deeper veins. 35c.

Doxa. Creamy olive throughout. Wonderful form and substance.

Ib-Pall. Ruffled reddish violet flowers. 35c.

Stormy Dawn. Beautiful combination of pale and darker blue with luminous brown. Two flowers to a stalk. 10 in. \$2.00.

Wm. Mohr. Beautiful large blossoms of lilac heavily veined and dotted with deeper violet. 35c.

Zwannenburg. Blend of old gold, fawn and white. Distinct.

JAPANESE IRIS

(Figures denote number of petals).

- Aspasia.** (3). Amethyst with delicate blue lines radiating from the central yellow bar. Center dark. 50c.
- Ayasi.** (3) Claret, pencilled white surrounding the gold bar.
- Avigata.** (3) Dark plum and gray veined purple.
- Choisei-Den.** (6) Ruffled claret and white.
- Columbia.** (6) Blue with pure white veins. Striking. 50c.
- Eleanor Parry.** (6) Claret red flamed white and blue. 50c.
- Goko.** (3) Mottled blue. Very wide petals. 35c.
- Hatsuki.** (3) Uniform dark blue. 50c.
- Idzumi-Gawa.** (6) Gray, radiating dark blue veins. 35c.
- Kyodosan.** (6) Very lovely orchid lavender pencilled white. Choice. 50c.
- La Favorite.** (6) Large and fine white freely veined blue, with a rich purple center. 50c.
- Nishika.** (3) Large rosy purple, mottled white. 50c.
- Olympia.** (3) Large white flowers veined blue. 50c.
- Pyramid.** (6) Violet purple veined white.
- Red Riding Hood.** (3) Fine amaranth veined and suffused white. 35c.
- Reine Des Bulgares.** (3) Deep blue shading with age to light blue. Veined white. Free flowering. 35c.
- Sano Natashi.** (6) White.
- Tai-Hier-Ka.** (6) A fine red.
- Tora-Odori.** (3) Gray overlaid lavender blue. One of the finest. 50c.
- T. S. Ware.** (6) Reddish violet flowers veined white. 35c.
- Uchiu.** (6) Coerulean blue veined white. Gold center.
- Yedo-Jiman.** (3) Dark royal blue. White halo.
- Yonoma.** (3) Mother of pearl coloring. Very tall. 50c.

SIBERIAN IRIS

- Baxteri.** S., deep violet purple; F., white, veined violet. 35c.
- Blue Charm.** Delightful light blue with large standards and round horizontal falls. 35 in. 50c.
- Blue Owl.** Blue violet with white center. Large. 35c.
- Blue Ridge.** Silvery light blue with turquoise mid-rib. Late. 34 in. 50c.
- Blue Star.** Fine contrast in light and dark blue. 30 in. 35c.
- Bob White.** Milk white flowers with lemon throat. 50c.
- Butterfly.** Light blue with white undertone. Profuse bloomer.
- Caesar.** Beautiful dark velvety blue purple with flaring falls. 75c.
- Caesar's Brother.** Very fine black purple. Does not fade. \$2.00.
- Dragon Fly.** Large soft violet blue.

- Duchess of York. Large deep blue with broad circular falls.
- Emperor. Outstanding velvety purple. Fine form. 4 ft.
- Gray Prince. Lovely gray blue.
- Heavenly Blue. An exquisite rich blue. 48 in. 75c.
- Kingfisher. Showy rich violet. Falls have a white center. 52 in. 35c.
- Lady Northcliffe. Deep violet veined white. 38 in.
- Miss Duluth. Dark violet with velvety falls. New and fine. \$1.00.
- Morning Magic. Soft lavender suffused rose. Early and tall. \$1.50.
- Mrs. Perry. Silvery white, flushed rose.
- Oldtown Seedling. Light blue with broad flaring standards. 35c.
- Papillion. Fine and tall with large bright blue flowers. 50 in. 35c.
- Peggy Perry. Ruffled velvety purple.
- Perry's Blue. Beautiful sky blue. Popular.
- Perry's Pigmy. Fine dwarf blue.
- Peter Pan. White, heavily veined blue.
- Red Emperor. Red-purple, veined blue.
- Red Raider. Red-toned purple. Large and dark. 32 in. 35c.
- Silver Tip. Clear dark blue with white stigmata. Ruffled. \$1.00.
- Skylark. Large and fine light blue. Falls edged white. 50c.
- Snowcrest. Clear sparkling white with slightly ruffled edges. 38 in. \$1.75.
- Snow Queen. Pure white with gold signal patch. 30 in.
- Sunnybrook. Exquisite shade of Alice blue. 30 in.
- Superba. Dark blue purple. 30 in.
- Thelma. Attractive light blue. Late.
- Turquoise Cup. An exquisite clear turquoise flower of finest poise and finish. A favorite. \$1.00.
- White Dove. Lovely white with golden throat and flaring falls. 50 in. 50c.
- White Empress. A very beautiful glistening white. Same shape as Emperor. 48 in. \$2.00.

TABLE IRIS

A new type of bearded iris with small flowers, wiry stems and slender foliage, suitable for table decorations. This type of iris has become so popular that stock has become scarce. Summer delivery.

- Bunting. A pale violet self of excellent form on well branched stems. 75c.
- Kinglet. Deep golden yellow self of attractive form. 50c.
- Peewee. Tiny pure white flowers on graceful, well branched stems. 75c.
- Siskin. Fine clear yellow, similar in form to Kinglet. 75c.
- Titmouse. Amber yellow speckled violet. 50c.
- Tom Tit. Mulberry purple with crisp flaring falls. 25c.

AUTUMN FLOWERING IRIS

These irises which belong mostly to the intermediate or dwarf bearded irises, produce a second crop of flowers in the fall. Summer delivery.

- Alice Horsfall.** Large dark velvety red- purple. A real beauty. 50c.
Autumn Elf. Olive cream and lavender with a glistening sheen. \$1.00.
Autumn Gleam. Citron yellow flowers of fine shape and substance. \$1.00.
Autumn King. Good lavender blue bicolor.
Autumn Queen. Everblooming white iris of good size and quality.
Dorcas Hutcheson. Fragrant violet self of excellent form. 20 in. 35c.
Eleanor Roosevelt. Deep velvety red-violet self. Reliable. 26 in. 30c.
Frost Queen. A large free-blooming frosty white. 50c.
Golden Harvest. Citron and sulphur yellow with a brownish sheen. 75c.
Jean Siret. Yellow, lightly washed violet. Dwarf. 50c.
Laura Hutcheson. Blue-purple tone. Very desirable. \$2.00.
Mellita. Brown veined yellow flowers. Sickie-shaped leaves. Distinct and different. Balkan species. 4 in. 35c.
Nyx. Fine deep purple.
September Skies. A deep red-purple self. Well recommended.
Sound Money. Very fine bright yellow of good form and substance. 50c.
Southland. Large lemon chrome flowers of good substance. 24 in. \$2.00.
Souv. De Lieut. Chavanac. Red violet. Everblooming. 10 in. 50c.
Ultra. Fine blue. Very dependable fall bloomer.

INTERMEDIATE IRIS

For a good many years the intermediate section of the bearded iris group was a somewhat neglected child, as breeders turned their attention to improvement among the dwarf and taller growing forms, but the last few years have seen the intermediate group come into its own again with the development of many fine new varieties of great beauty. Summer delivery.

- Abelard.** Unusual combination of brown and purple. 26 in. 50c.
Alabaster. Attractive creamy white.
Ambera. Very fine large amber yellow self. 30 in. 50c.
Britoness. Large fine clear primrose yellow. Early.
Challenger. Deep blue purple of large size and fine substance.
Cosette. Very fine white. Free flowering and of good substance. \$1.00.
Cryso-ro. Clear bright glowing yellow. Early. 35c.
Elizabeth Huntington. A crisp frosty blue Zua. 35c.
Gentius. A striking royal purple. Rich and velvety. Popular. 50c.
Golden Bow. The purest golden iris we have ever seen. Large flowers of fine rounded shape and excellent substance. A very fine iris. \$1.25.
Nymph. Free blooming clear light yellow. Early. Good.
Susa. Velvety red-purple self of pure fine coloring. 50c.
Zua. Much crinkled frosty white flushed with blue. Distinct.

DWARF BEARDED IRIS

Pumila, Chamaeiris and Hybrids.

(Abbreviations: S—Standards; F—Falls.)

We specialize in dwarf bearded irises and offer a very fine and comprehensive collection. These low growing types are remarkably free flowering and are admirably suited to the rock garden as well as the iris border, where they may be used in front of the taller sorts to prolong the season of bloom, as they are the first of the bearded irises to flower. Mid-summer delivery.

Alba. Popular early white with a yellow beard. Very fragrant. 6 in.

Alpin. S., lobelia; F., reddish purple. 5 in.

Aphylla Osiris. Blue purple bicolor. 12 in.
